

ActivArena enables collaboration and engagement in the classroom by allowing two users to simultaneously interact anywhere on an ActivBoard.

Why ActivArena?

Encourages teamwork — Learning to work together is an important life skill. Students using ActivArena can work as a team to resolve a problem or to outline an idea. By assuming complementary roles to complete their activity, students realize the benefits of working together.

Builds confidence — ActivArena enables students to feel more comfortable in front of the class by working alongside a peer, or receiving immediate teacher guidance.

Stimulates critical thinking — ActivArena makes it possible for students to respond to each other immediately. This provides the opportunity to see how others interpret an individual's work and consider alternative approaches.

Develops social interaction and oral communication skills — ActivArena provides a good forum for a side-by-side demonstration of two points of view. Students then identify where their ideas overlap or diverge, promoting the development of negotiation skills.

ActivArena enables:
Immediate collaboration
Real-time competitive challenges

ActivArena

Ready-made activities included in
ActivInspire

Templates encourage collaboration and
competition

Key Features

ActivArena and ActivArena 50 — Pen-driven solutions with full mouse functionality for two users of any age

ActivArena 50 with ActivWand — Click and hover functionality and lightweight, easy to use wands enable extended reach for two users

Entire ActivBoard functionality — Both the pens and the wands can use the entire ActivBoard surface; some competitive products limit the user to only designated areas on the board

Differentiated tools — The two pens or wands are easily identified as teacher or student by color and through different software controls

Fully integrated with ActivInspire (Professional Edition required) — Includes templates and activities specifically designed to enhance, support and supplement lessons for two users

The *ActivClassroom by Promethean* creates successful, 360-degree educational environments by connecting technology to human ingenuity, and teachers to their peers, to students, and to a whole new world of learning.
