In a vast, limitless digital world...

BIGGER  
— IS —  
BETTER

INTRODUCING THE

W I D E S C R E E N

ActivWall System™ with LaserView Technology™

A widescreen interactive learning system where teachers and students can collaborate, connect, and share ideas.

# ALL-IN-ONE SOLUTION FOR TEAM-BASED COLLABORATION

Introducing the ActivWall System's unique Surface-Segmentation Technology™

## Independent Learning Spaces

Divide the ActivWall into up to four learning spaces to enable students to work independently or in small groups using their own web browser.

## Multi-User Interaction

Students can interact using touch and pen and have access to their own on-screen keyboard to solve problems, explore solutions, and learn in a technology-rich environment.

## Simple and Intuitive Interface

In an instant, teachers can add a new learning space, resize the web browsers and lower the content to ensure accessibility for younger children.

# ADVANCED SURFACE TECHNOLOGY

The ActivWall's innovative widescreen surface is designed as an all-in-one collaborative learning solution, offering multi-touch interactivity, HD viewing, and dry-erase writing.

The state-of-the-art classroom technology system includes:

 102" or 135" widescreen interactive surface

 DLP solid-state projector

 Built-in stereo speakers

 Award-winning interactive software

 Wireless mirroring system

# DEEPEN STUDENTS' LEARNING

 **Instant White-Boarding**  
Launch the Instant Whiteboard to write and draw freely for brainstorming and classroom instruction. Capture annotations and notes to send to students.

 **Creative Polling**  
Measure student understanding and gather feedback by sending questions to students and have them respond using any connected mobile device.

 **Interactive Web Browsing**  
Select the custom web browser to quickly search for information. Send students webpage images with live links and notes.

 **20 Touch Points and Digital Pen Interactivity**  
The spacious multi-user surface makes any lesson interactive by supporting 20 touch points and 4 digital pens.

# A THEATER-LIKE CLASSROOM VIEWING EXPERIENCE

Transform the traditional classroom display into a captivating viewing experience with the ActivWall's best-in-class picture performance and full HD resolution.

## The ActivWall System Features Promethean's LaserView Technology™

Includes a DLP solid-state projector with a 20,000-hour light source with no lamp replacement.

Offers full HD Ultra-Widescreen and Widescreen displays with beautiful illumination and brilliant color.

Delivers a near instant power on and off, auto-calibration and 3D ready capabilities.

## UNLEASH THE POWER OF MOBILE TECHNOLOGY

Teachers and students can wirelessly view and share lesson resources with the entire class using smartphones, tablets and laptops. The ActivWall System detects the streaming feature that is already built into the device eliminating the need for additional software or apps to get students connected.

## CREATE A DYNAMIC AND COLLABORATIVE LEARNING EXPERIENCE

### Simultaneously Mirror Multiple Devices On-Screen

Share content from multiple students' mobile devices at the same time to the ActivWall for whole class viewing. Teachers have full control to start or stop mirroring at any time.

### Share and Interact with Content

Each student can use their connected mobile device to receive, send, annotate and interact with digital lesson content.

### Move Freely Throughout the Classroom

Teachers can observe and intervene with individual work teams while mirroring lesson content from anywhere in the classroom using their mobile device.
