

Features

- Provides physical protection with conductive material, providing reliable path-to-ground
- Many sizes available to optimize fit to your product size for listing of sizes click HERE
- Rolled over side construction (double thickness) for greater strength
- Static dissipative foam bottom, providing ESD and shock protection
- Includes steel wire frame for extra strength
- Conductive plastic hand holes for ease of handling, while providing reliable path-to-ground
- Static Dissipative partitions made from Protektive Pak® impregnated corrugated
- Product ships assembled
- Conductive Rs 1 x 10² to <1 x 10⁵ ohms per ANSI/ESD STM11.11
- Meets ANSI/ESD S20.20 worksurface required limit per ANSI/ESD S4.1 and ESD TR53
- Superior strength and durability; made from extruded, high impact polypropylene materials
- Chemical and moisture resistant
- Ideal for use where corrugated and/or paper products cannot be used
- Economical alternative to injection molded products
- Reusable, ensuring best value*

Specifications

Properties: Typical Values: Resin Type Polypropylene Conductive Permanently

 1×10^{2} to $< 1 \times 10^{5}$ ohms Surface Resistance

Humidity Independent Yes

Temperature Tolerance -17° F to +230° F

Melting Point 324° F

Specifications and procedures are subject to change without notice

Plastek™ In-Plant handlers

Dimensional Tolerances are +/- 10% unless otherwise specified
