Audience Response System QRF300

What is QClick?

QClick is the most powerful and cost effective Interactive Wireless Audience Response System on the market. It can be used in traditional classroom settings, group meetings, or wherever instant feedback is desired.

The QRF300 system can interface with any file format you plan to test with, via its Freestyle Mode, engaging participants in virtually any activity. QClick software also completely integrates into Microsoft PowerPoint making this interactive platform both easy to learn and fun to use. It enriches your presentations and lessons, encouraging participation.

With QClick's PowerPoint-based software and wireless student remotes given to each participant, real-time feedback can be electronically collected at the simple click of a button. Eliminate exams and quizzes with the reporting features that allow you to generate full scale, Excel-compatible reports.

What can QClick do for you?

• QClick ensured that your professional presentation is more interesting, entertaining, interactive and informative.

• Instructors and presenters can display questions, surveys, opinion polls and games that allow everyone in the audience to select a response via their wireless student remotes and transmit the data immediately to the presenter.

• Information can be accurately and efficiently gathered, ranked and displayed in a matter of seconds.

• QClick integrates 100% into PowerPoint giving you the capability to author, deliver, assess and report without ever leaving PowerPoint.

• Conduct on the spot assessments or gauge the opinion of each participant at any point during your presentation or training session.

• QClick is capable of supporting large audiences.

• Wireless hand-held Instructor Remote allows the presenter to conduct exams while maintaining full classroom mobility.

• QRF300's Freestyle mode allows you to run your activities with any medium: Paper exams, Oral quizzes, PowerPoints, XML files and more!

• QClick Reporting offers many formats for viewing the results, all excel compatible.
