Conductive Dividable Grid Containers

MADE IN THE USA

Protect your electronic components from typical electromagnetic interference ***(EMI)***, electrostatic or induced fields with these molded, carbon-filled, copolymer polypropylene dividable grid containers. Surface resistivity is less than 10^5 Ohms-per square. The conductive material provides a barrier which these fields cannot penetrate and prevents the build-up of electrostatic charge. Containers, dividers and covers are permanently conductive and are unaffected by washing with normal cleaners. Containers have a load capacity of up to 100 lb. Dividers available to customize your box into compartments at 1-1/8" intervals and snap covers protect contents from dust or damage. Be sure all bins are properly grounded according to your use.

Dividers can be customized for optimal storage *(Sold separately)*

Conductive Label Holders

DIVIDERS
Containers can be divided by length and/or width allowing a subdivision down to a 1-1/8" square compartment size. Available in Black.

SNAP ON COVERS
Snap on covers protect contents from damage or dust during shipping and storage.

LABEL HOLDERS
Fits any size container. Three sizes to choose from. Attach via metal grommets on label holder and bins.

COMPLETE PACKAGES WITH BINS

Conductive Bin Carts

Offering two heights and four bin quantity designs, these modular carts are the ultimate work-in-process and transport carts. Dividable grids slide easily in and out and with their ability to be divided into multiple compartments with long and short dividers, truly any type of storage is possible. Dividable grids are available in Black. ***Cart Finish:*** Chrome
