

Arise Electric Adjustable Bases

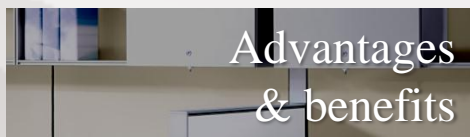

Looking for a pedestal style electric height adjustable base that is perfect for corner applications or training tables

With the locking casters on the rear of the base moving the table around when required is easy, or locking them down when used in a permanent application.

With 520mm (20.5") of height adjustment from 660mm (26") to 1180mm (46.5") this is our most economical sit/stand table.

Can be used with top sizes from 95cm (37.5") – 117cm (49") wide X 80cm (31.5")-100cm (39.37") deep

- Visible metal parts are powder coated in black or "aluminum" color
- 60 W AC Power Transformer
- 1.5 meter (59") power cord
- Max load of 55kg (121lbs)
- Ships knocked down, some assembly is required

- Easy height adjustment through electric motor
- Dual rocker switch height control for increased safety
- Durable powder coat finish
- Rolling casters make it easy to move table when desired
- designed to be used with multiple top sizes

PLEASE NOTE: TABLE TOPS ARE NOT INCLUDED
