# 1. Sending Emails

- Attach snapshot to email alerts
- Default configuration for email alerts is as follows:

Email Config: Enable
Email Encryption: SSL
SMTP Port: 465
SMTP Server: mail.smtp2go.com
Sender Email: richtech@worlddisplay.com
Sender Pwd: 6vlR5wUXn2oh

2. Regarding STOP sound volume

- stop.wav volume down

3. Alarm sound on/off switch settings

- Added option to disable alarm STOP sound

4. Door access controls

- Added Temperature & Mask option, preventing entry if either temperature or mask do not pass parameters

Factory Default: Temperature & Mask

5. Some factory default adjustments

- IP Settings

  Primary DNS： 8.8.8.8
  Alterative DNS ： 8.8.4.4
  IP (Address requirements unchanged)

- Time Defaults

  Date Format： mm/dd/yy
  Time format: 12 Hour
  Default Time Zone： US Western Time Zone (PST)
  NTP Timing: ON

6. Removed unnecessary code

- Removed unnecessary code left over from production
- Removed "Capture configuration" settings

8. Batch upload changes

Changed example prompt to read:
Rose#S1#B1990-01-23#C USA#P New York# Albany#T1#M330501190001016222.jpg
With a [space] before CITY field.

9. Bugfix: Blacklist deletion

- FIXED: Some entries in blacklist database cannot be deleted

10. Bugfix: Batch uploading

- FIXED: When importing the list in batches, when the pictures are named, it appears that the city filled in this item in the City starts with M, which conflicts with the #M behind it and cannot be imported in batches.
