SMART Board® 6000

Turn on the display

Press the Standby button on the front control panel.

OR

If the Wake to Touch option is enabled, the display turns on when you touch the screen.

- 1. Standby
- 2. Input Select
- 3. Mute
- 4. Decrease
- 5. Increase
- 6. Move Up (menu)*
- 7. Move Down (menu)*
- 8. Menu*

*SPNL-6000-V3 only

Show the connected computer's desktop

After connecting a computer, press the Input Select button 🔁 on the front control panel until HDMI1, HDMI2 or DisplayPort is selected.

NOTE: Be sure to enable touch control of your computer by connecting a USB cable between the USB port in the display's side connection panel and a USB connector on your computer.

Use the iQ features

The display includes iQ features that you can use without connecting a computer. To access these features, tap the Home button at the bottom of the screen.

OR

Press the Input Select button 🖻 on the front control panel until **OPS** is selected.

NOTE: The option you select to use the board's iQ features varies with the model. Select **iQ** or the option that includes **OPS** (**OPS**, **OPS display port**, or **OPS HDMI**).

INP	UT			
		HDMI 1		
		HDMI 2	2	
		DisplayP	ort	
		OPS		

You can then use all the iQ features described in the SMART Board display teacher guide (smarttech.com/displayteacherguide).
