Precise Feel – Direct Bonding

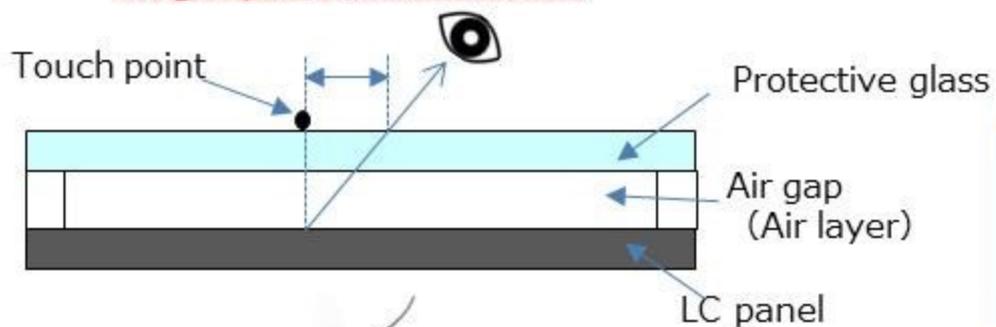

Direct Bonding Structure and Advantages

Direct bonding: Technique for bonding LCM (liquid crystal module) and protective glass

- Improved Touch Input by Reducing Parallax
- Industry's First Direct Bonding for IR

Previous Structure (PN-C703B)

Larger parallax difference

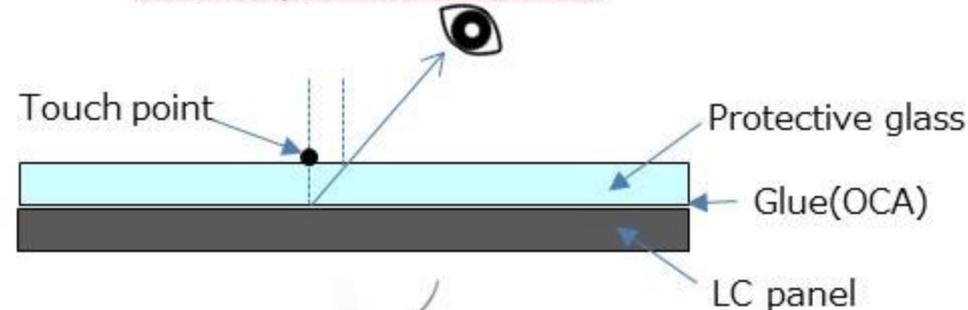

Parallax 7.9mm

Protective glass	3.2mm
Glass surface film	0.1mm
Glass back film	0.1mm
Air gap	4.5mm
Total	7.9mm

Direct Bonding (PN-C805B/705B)

Smaller parallax difference

Parallax 3.3mm

Protective glass	3.0mm
Glass surface film	0.1mm
Adhesive (OCA)	0.2mm
Total	3.3mm

Parallax 58% down

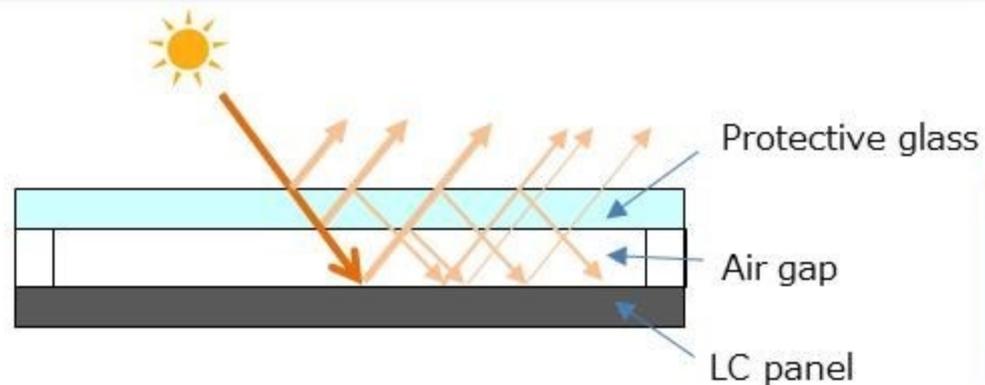

Precise Feel – Direct Bonding

Direct Bonding Structure and Advantages

Direct bonding: Technique for bonding LCM (liquid crystal module) and protective glass

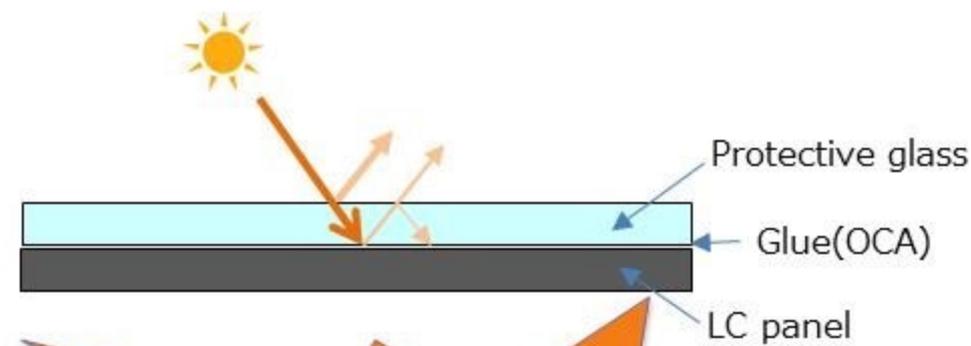

Improved Visibility by Suppressing Reflection and Refraction between LC Panel and Protective Glass

Previous Structure (PN-C703B)

Reflection/refraction are increased due to air gap

Direct Bonding (PN-C805B/705B)

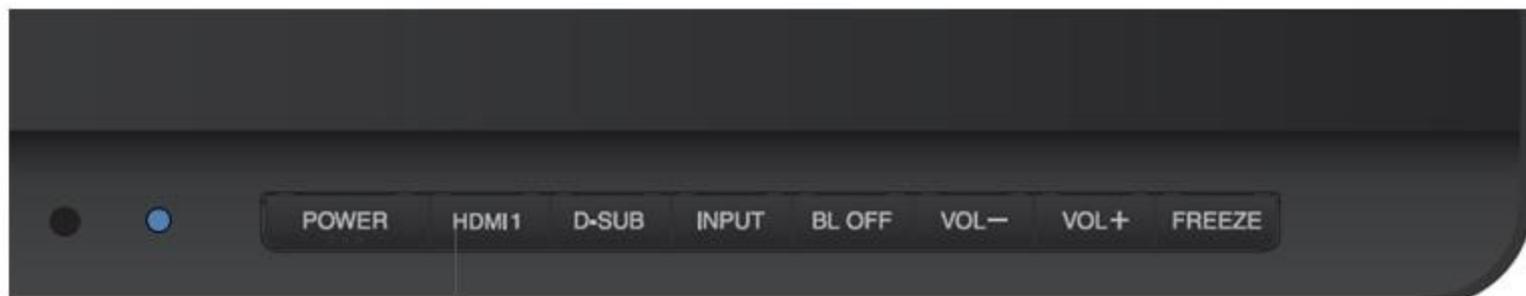

Reflection and refraction are minimized

Direct Operation Button

Improved Operability with Operation Buttons at Bottom-right of Front Bezel

- Easy-to-push sized buttons
- Upward angled buttons improve visibility

- Operation button specifications**
- Power : Power ON/OFF (Standby)
 - HDMI1 : Switch input to HDMI1 directly
 - D-SUB : Switch input to PC(D-Sub) directly
 - INPUT : Switch to input switch mode, when cursor selection is down
 - BL OFF : Only backlight is OFF
 - VOL - : Volume down
 - VOL + : Volume up
 - FREEZE : Temporary standstill of display screen

Direct Operation Button

One-touch Operation Buttons for Switching Input, Backlight-off, and Freeze

HDMI1, D-sub

- Directly switching input between HDMI1 and D-sub
- One-touch operation button makes it easier to switch input between multiple connected devices

BL OFF

- Pressing "BL OFF (backlight off)" button, display screen will black out, and pressing any key turns backlight on instantly (This is faster than recovering from stand-by mode)
- Convenient to turn off backlight temporarily during breaks for environmental-friendly operation

FREEZE

- Pressing "FREEZE" button, display screen will freeze temporarily
- e.g.) Convenient for classroom: Teachers can work on other jobs on their PC while the display screen is frozen so that students can continue working

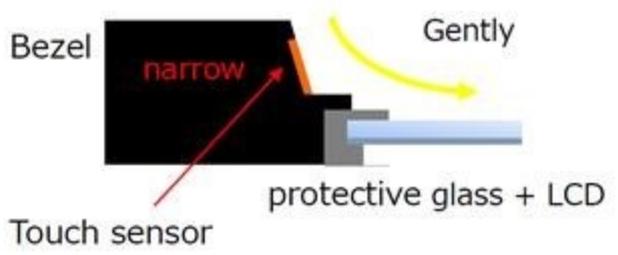

Stylish Design

Front View

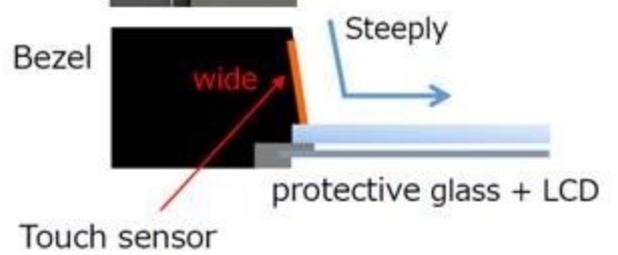

Curved corners are designed with safety in mind

PN-C805B/705B

PN-C703B

Rear View

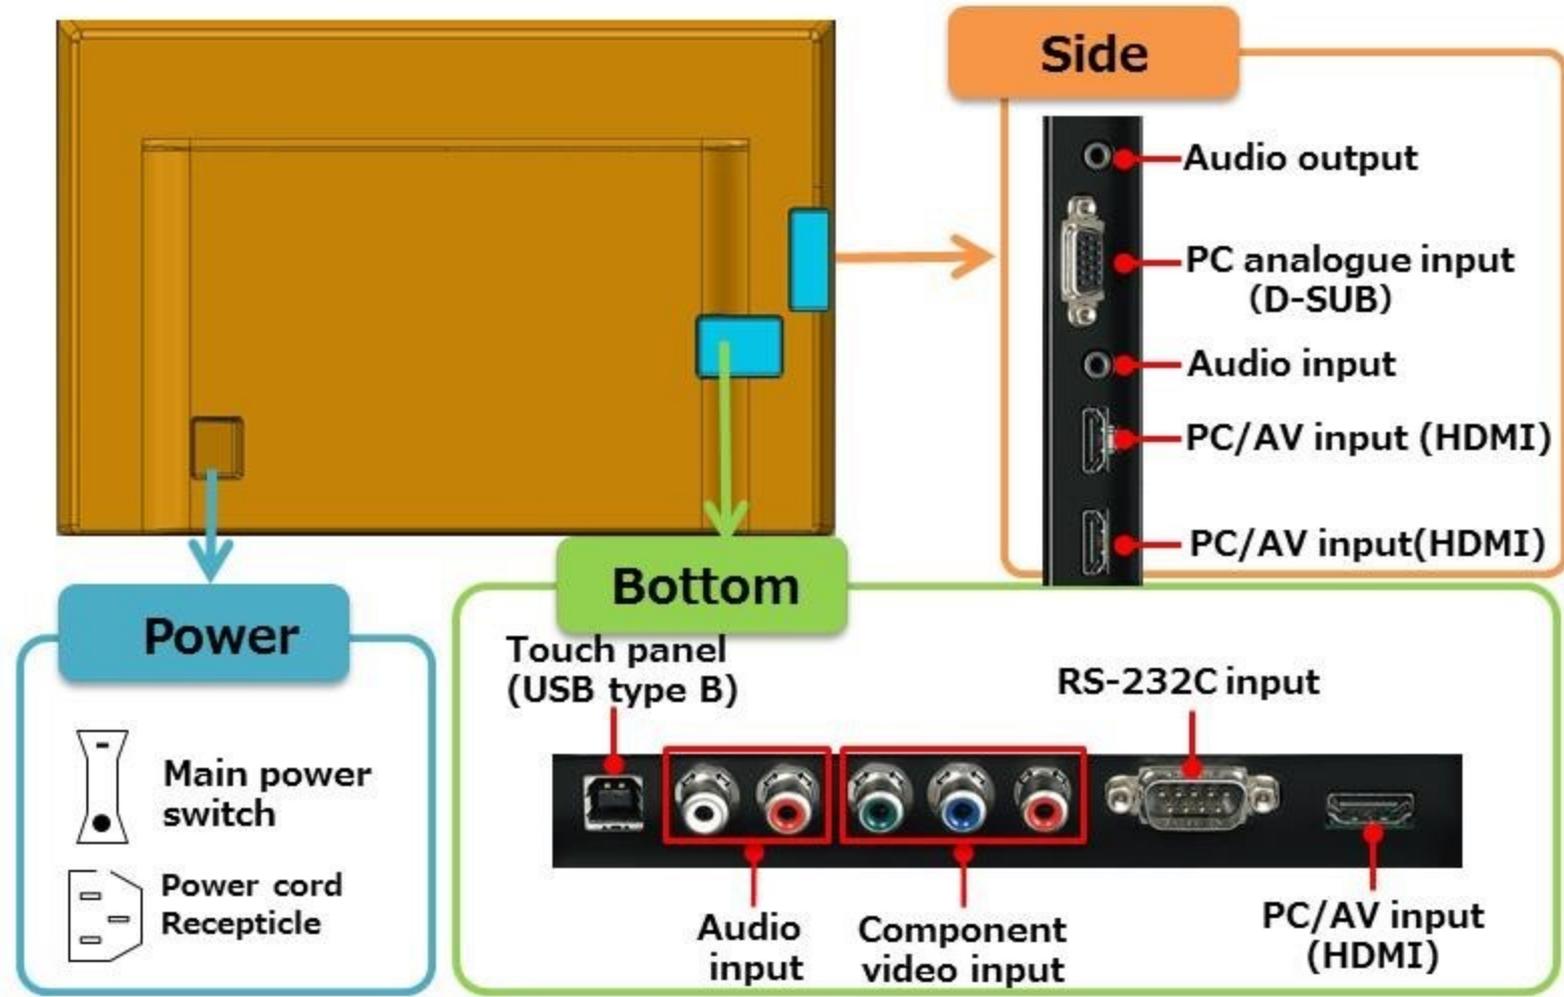

Four removal handles allow for easy and safe transportation

CUD Compliant

Compliant with the CUD (color universal design) standard*, which specifies designs that take into account people's differing color perception abilities.

* Based on regulations established by Color Universal Design Organization (CUDO), a non-profit organization in Japan.

Input / Output Terminals

	Terminal Name	
Input terminal	HDMI	x3
	D-Sub15P	x1
	Audio(mini jack)	x1
	Component/Video	x1
	RS-232C	x1
	Audio(RCA L/R)	x1
	For touch USB (Type B)	x1
Output terminal	Audio (mini stereo jack)	x1

* RJ11 / LAN are not supported

Functional Remote Control

Newly Designed Remote Controller Offers Enhanced Operability

NEW

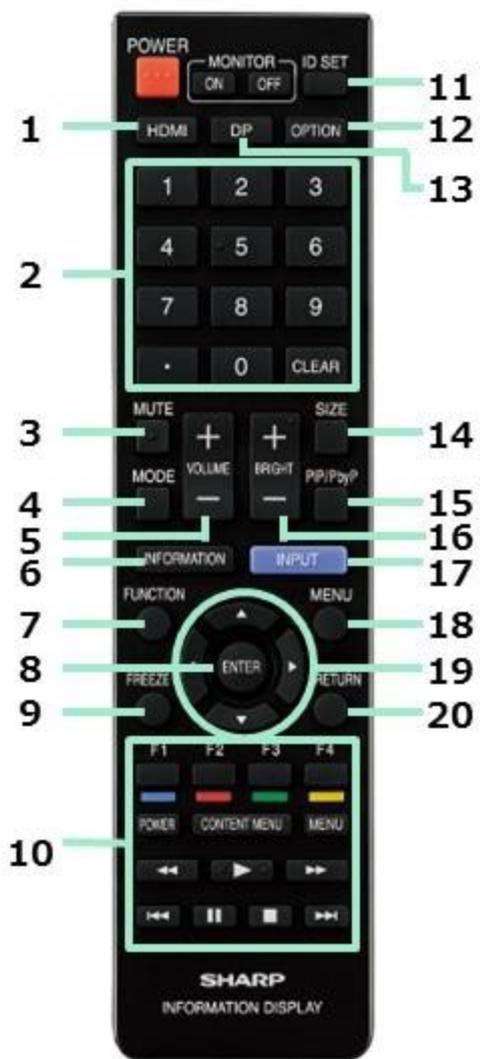

HDMI CEC support

Direct button to switch input mode (HDMI)

FREEZE button to freeze video

Functional Remote Control

1. **HDMI:** Switch the input mode to HDMI1, HDMI2 or HDMI3.
2. **Numeric input buttons:** When HDMI CEC LINK is set to AUTO, use these buttons to operate the device connected through the HDMI interface.
3. **MUTE:** Turns off the volume temporarily. Press the MUTE button again to turn the sound back to the previous level.
4. **MODE (Picture mode selection):** Each time you press this button, the picture mode changes in the following order. PC*→DYNAMIC→DYNAMIC(FIXED)→STANDARD→MOVIE→PC*...
* For PC, switch only when the input mode is HDMI1, HDMI2, HDMI3 and D-sub (PC).
5. **VOLUME +/- (Volume adjustment):** Press + or - to display the VOLUME menu and adjust volume.
* If you do not press any buttons for about 3 seconds, the VOLUME menu automatically disappears.
6. **INFORMATION:** You can check input signal/terminal (The display automatically disappears after about 5 seconds)
7. **FUNCTION:** Use this to display the FUNCTION menu.
8. **ENTER:** Confirms the setting.
9. **FREEZE:** Freezes the video shown on the monitor. The touch panel remains enabled while the video is frozen and touch actions can be reflected. To cancel, press any button other than the POWER button, the MUTE button, VOLUME + button* or VOLUME - button. Freeze is also canceled when the input signal changes (switching to no signal, changing the resolution, etc.). * When MUTE WITH FREEZE is set to OFF.
10. **Buttons for operating the HDMI-connected device:** When HDMI CEC LINK is set to ON, use these buttons to operate the device connected through the HDMI interface.
11. **ID SET:** This is not used with this monitor (PN-80SC5/PN-70SC5).
12. **OPTION:** This is not used with this monitor (PN-80SC5/PN-70SC5).
13. **DP (DisplayPort):** This is not used with this monitor (PN-80SC5/PN-70SC5).
14. **SIZE (Screen size selection):** The menu is displayed. Press ▲ or ▼ buttons to select the screen size.
15. **PIP/PbyP:** This is not used with this monitor (PN-80SC5/PN-70SC5).
16. **BRIGHT +/- (Brightness adjustment):** Press + or - to display the BRIGHT menu and adjust the brightness.
* If you do not press any buttons for about 3 seconds, the BRIGHT menu automatically disappears.
17. **INPUT (Input mode selection):** The menu is displayed. Press ▲ or ▼ to select the input mode, and press ENTER button to enter.
18. **MENU:** Displays and turns off the menu screen.
19. **Cursor:** These buttons are used to perform operations such as selecting items, changing adjustment values, and moving the cursor.
20. **RETURN:** Returns to the previous screen.

 ...Same as current RC button	 ...New button	 ...Old button but with new name	 ...No function

Specifications (PN-C805B /PN-C705B)

Model Name		PN-C805B	PN-C705B
Installation		Landscape	
LCD Panel	80" Class (diagonal) UV ¹ A ² LCD		70" Class (69.5" diagonal) UV ¹ A ² LCD
	Max. Resolution	1,920 x 1,080 pixels	
	Max. Display Colors (approx.)	1.07 billion colors ³	
	Pixel Pitch (H x V)	0.923 x 0.923 mm	0.802 x 0.802 mm
	Max. Brightness (average) ⁴	350 cd/m ²	
	Contrast Ratio	5,000 : 1	4,000 : 1
	Viewing Angle (H/V) ⁵	176°/176° (CR ≥ 10)	
	Active Screen Area (W x H) (approx.)	69 3/4" x 39 1/4"	60 3/16" x 34 1/16"
	Response Time	4 ms (gray to gray, avg.)	8 ms (gray to gray, avg.)
Backlight		LED, direct lit	
Touchscreen	IR (infrared blocking detection method)		
	PC Connection Port	USB 2.0	
	Power Supply	Supplied from USB port	
	Multi Touch	10 points	
	Protection Glass	Thickness: Approx. 3.1 mm ⁶ Shock resistance: 130 cm ⁷	
Touch Pen	Function Button		
	N/A (passive pen)		
Computer Input	Video		
	Analog RGB (0.7 Vp-p) [75Ω]		
	Synchronization		
Plug & Play		Horizontal/vertical separation (TTL: positive/negative)	
Video Color System		VESA DDC2B	
Input Terminals ⁸		NTSC (3.58 MHz) / NTSC (4.43 MHz) / PAL / PAL60 / SECAM	
Output Terminals ⁹		PC analogue: Mini D-sub 15-pin x 1, HDMI™ x 3 (HDCP and 1080p compatible, PC / AV signal compatible), 3.5 mm-diameter mini stereo jack x 1, audio: RCA pin (L/R) x 1, video: RCA pin x 1 ¹⁰ , component video: RCA pin x 1 ¹⁰ , RS-232C D-sub 9-pin x 1	
Speaker Output		3.5 mm-diameter mini stereo jack x 1	
Mounting		VESA (4 points), 600 x 400 mm, M6 screw	VESA (4 points), 400 x 400 mm, M6 screw
Power Supply		100V – 240V AC, 50/60 Hz ¹⁰	
Power Consumption		270 W	200 W
Environmental Conditions	Operating Temperature		5°C to 35°C
	Operating Humidity		20% to 80% RH (no condensation)
Dimensions (W x D x H) (approx.) (display only)		74 1/8" x 5" x 44 1/16"	64 3/16" x 3 3/4" x 39 1/16"
Weight (approx.)		174.2 lbs	136.7 lbs
Main Accessories		Power cord, remote control unit, battery (AAA size) x 2, set-up manual, cable clamp x 2, cable clamp (for power cord), USB cable ¹⁰ , eraser, pen tray, pen tray mounting screw x 5, touch pen, camera mount, camera mount screw x 2, camera screw, CD-ROM, SHARP Display Connect license, stand hole protection cover x 2, blank sticker	

¹ UV¹A stands for Ultraviolet-induced Multi-domain Vertical Alignment, a photo-alignment technology that ensures uniform alignment of liquid crystal molecules. ² Maximum colors of LCD panel. The number of colors that can be displayed simultaneously is 16.77 million arbitrary colors out of 1.07 billion colors. ³ Brightness depends on input mode and other picture settings. Brightness level will decrease slightly over the lifetime of the product. Due to the physical limitations of the equipment, it is not possible to maintain a precisely constant level of brightness. ⁴ Excluding the touch sensor part around the LCD panel. ⁵ Including anti-glare film on the front. ⁶ Approximate distance at which the glass panel can withstand the impact of a 500-gram iron ball dropped on its center. ⁷ Use a commercially available connection cable for PC and other video connections. ⁸ Video and component video are switchable; use the menu to select. ⁹ The AC power cord is an inlet type. The cable is bundled (3 pins). ¹⁰ Please use only this USB cable and no other. If connected via a USB hub, a PC may not recognize the PN-C805B/C705B interactive displays correctly and operation may be unstable.
