OVERVIEW

The DV-SW8-P is a dedicated multi-platform switch capable of managing up to 8 different computers through a single monitor and a set of speakers. The video connectors on the unit are DVI-I, which allows support for HDMI and VGA using inexpensive passive adapters or cables. When using a DVI or an HDMI monitor, computers can be a mix of either DVI or HDMI. When utilizing a VGA monitor, all computers must have a VGA/Analog video connection.

The DV-SW8-P supports resolutions of up to 2560 x 1600 @ 60 Hz with zero pixel loss from TMDS signal correction.
