Shouldn't you be able to have incredible creative control over what your video wall and digital signage can show? SignWall allows you to present content in the most unique and customizable way of any video wall on the market by allowing you to include as many different visual elements as you want in any arrangement you can imagine.

We are now entering the world of possibilities.

Manage live HTML 5 widgets within any of SignWall's customizable zones

Crystal clear 1080p HD video quality with desktop sharing capabilities

Stay informed by adding a live news ticker with news from your company or favorite news site

RSS feed display capabilities

Easy to set up and manage over the Internet. SignWall is fully customizable to meet your business needs. With the ability to run multiple widgets and screens at once!

How Will You Use The SignWall?

Let's imagine the different ways that SignWall can supercharge your visual communication to customers and employees alike.

Airports

Whether you are advertising or trying to direct travelers to their correct flight, you need a digital signage system that will allow you have dynamically changing content presented in a way that is both attractive and easily organized.

Malls

Large retail malls are the wild west of advertisement. How are you going to stand out and catch the attention of your customer among the thousand stores that are trying to grab their attention? The answer is simple. SignWall.

Schools, Colleges, and Universities

Looking to create a deeper connection with the student body at your school? Make sure everyone is up to date on upcoming events and activities? Why not set up a simple and easy to use SignWall in the quad? You can simultaneously entertain, connect with, and educate your student body.

Casinos

You work hard on creating a space where people can be entertained and let loose for a while. Casinos are places of beauty and style, so bring even more beauty and style to your casino with the visual engagement of SignWall.

Corporate Lobbies

People make decisions about your business in the very first seconds of entering your office, so make sure they're impressed from the very first glance. SignWall can be used to create engaging corporate presentations to run in the lobby of your office, so the deal is sealed before a client even enters the meeting.

Restaurants

Imagine a sizzling steak or a tasty cocktail displayed on a beautiful video wall or digital signage in your restaurant whetting your customer's appetite from the moment they arrive. Inspire your customer's imagination and appetite and they'll order more food and keep coming back to your restaurant for years.

House of Worship

Instantly improve the flow of communication to your congregation by placing your video wall or digital signage in the entrance area of your house of worship. Update it with information about events and services anytime quickly over the Internet.

Installation and Setup

SignWall uses the internet and the least amount of cords possible for a quick set up process.

Our bundled software allows you to create layouts, manage content and schedule exact times for your content to display on SignWall. Experience the feeling of complete control over your visual communication.

Why Is SignWall's Hardware So Good and Affordable?

It's because SmartAVI chooses to use hardware components that are not only time-tested and highly-compatible but also widely-available so we can build our products with superior quality for much cheaper than other video walls.

The genius is in that SmartAVI mixes and matches the best components from trusted brands like Intel, NVidia, and SanDisk to create tailor-made solutions for our customer's needs. This means that SignWall is not only aggressively priced but also easy to upgrade and repair, so you can feel safe in making your investment in a video wall.

Some of the trusted hardware brands we use:
