XpertClean Fiber Optic Cleaning Kits

optimize!
softing

Fiber optic cleaning is always required before connecting and before testing a fiber optic cable. In the past, gathering the right set of cleaning supplies, and understanding their use, required time and research. With Softing XpertClean kits, which includes a CleanWash solvent pen, a CleanMachine push and click cleaner for bulk cleaning, CleanSwabs and CleanStrip for hard to reach areas, fiber optic cleaning is bundled and easy. The XpertClean process saves you time cleaning and troubleshooting, resulting in clean fiber optic end faces and maximum network performance.

Product Description

The **CleanMachine** is the easy to use cleaning tool for fast and reliable end face cleaning. End faces in bulkheads or on cable assembles are both effortlessly cleaned the first time...every time. The CleanMachine has an easy to use mechanism that advances fabric over a cleaning tip with just a short push and click of the tool. Using the CleanMachine with the CleanWash Pen provides for fast, easy and repeatable combination cleaning.

- Cleans connectors on back plane and on jumpers
- Uses combination cleaning process for first time cleaning, every time
- Used to meet or exceed IEC 61300-3-35, IEC TR62627-01, and Telcordia GR-2923-CORE and SAE
- Aerospace AIR6031.
- Effective for the widest range of contaminants
- Easy to use for quick and reliable cleaning
- Rugged and durable, great for all work sites
- Magnetic backing for easy rack placement
- Up to 800 cleanings per kit

Typical Applications

- End-face connector cleaning
- Cleaning patchcord connectors
- Cleaning bulk-head connections
- Specifically made for either 2.5 mm connectors, MPO connectors, or 1.25 mm connectors

XpertClean Process

Usage Instructions

Wet the CleanMachine fabric tip with the CleanWash pen, insert the XpertClean tip into the connector, and push in the tool 2-3 clicks advancing the fabric from wet-to-dry, perfectly cleaning the end-face. Combination Cleaning™ eliminates all debris and contamination the first time, avoiding expensive rework and truck-rolls from bad connections.

Kits for ST, SC, FC, LC, and MPO conntectors

XpertClean for ST, SC, FC Kit
Part number: XC-AC-CKIT-STSCFC

XpertClean for LC Kit
Part number: XC-AC-CKIT-LC

XpertClean for MPO Kit
Part number: XC-AC-CKIT-MPO
