

TKSA DISPLAY

Quick Start Guide

1. Description

The TKSA DISPLAY is an industrial display device selected for operating SKF Shaft Alignment Tools.

It is delivered in a rugged case to protect the display against accidental drops, dust and scratches from harsh industrial environments. The TKSA DISPLAY is compatible with all app based SKF Shaft Alignment Tools: TKSA 11, TKSA 51, TKSA 71 and TKSA 71/PRO.

2. Getting Started

1. Read and follow the user manual of the tablet
2. Fully charge the battery of the tablet using the supplied power adapter
3. Start the tablet
4. Change the tablet language if required
5. Launch the app for your alignment application from the home screen
6. Optional: Prepare your TKSA DISPLAY to receive updates automatically

Note:

The tablet is ready to use out of the box. An internet connection or a Google account are NOT required to use the TKSA DISPLAY.

3. How to change the language of the tablet?

1. Open the **Settings** app
2. Under **Controls** tab, select **Language and input**
3. Tap on **Language English**
4. Select your preferred language
5. The tablet switches immediately to the new language

Note:

The alignment apps are available in 8 languages. The app uses the same language that is used as the system language of the TKSA DISPLAY. If the app does not support the selected language, English is used as the default alternative.

4. How to update the apps?

SKF releases app updates to correct bugs, improve performance and add new features. The updates are made available through Google Play Store which requires a Google account and an internet connection for the update.

1. Turn on Wi-Fi and connect to an internet network
2. Open the **Settings** app
3. Under the **General** tab, select:
Accounts --> Add account --> Google
4. Follow the instructions to add an existing account or create a new one
5. Open the **Google Play Store** app 
6. Tap **Menu**  --> **"My apps & games"**
7. Apps with an update available are labeled **"Update"**
8. Tap **Update All** to update all apps. For individual apps, find the specific app you want to update and tap **Update**

5. SKF alignment apps available

Shaft Alignment app
Alignment of machines
with horizontal shafts

Compatible with:
TKSA 51, TKSA 71

Vertical Shaft app
