

## Product Data Sheet

# ESD MicroFiber Polyester Knit Swab, Cleanroom

TNP100029BG

## Product Information

Used for applying and removing PVE lubricants, adhesives, scrubbing recessed areas, removing excess material, fine powder, cleaning intersecting surfaces and joints.

## Applications

- Electronics industry
- Computer assembly
- Semiconductor assembly
- Circuit board production
- Precision electronics

### Technical Details

### Typical Values

|                 |                                   |
|-----------------|-----------------------------------|
| Overall Length  | 3"                                |
| Tip             | 0.158" Dia.<br>0.394" Length      |
| Handle          | 0.091" Thickness<br>2.402" Length |
| Handle Material | Polypropylene                     |
| Head Material   | MicroFiber Polyester Knit         |

### Packaging

|             |           |
|-------------|-----------|
| TNP100029BG | 100 Swabs |
|-------------|-----------|

- Double Layered Polyester Knit for enhanced absorption, resistance to abrading, preventing the release of particles and fibers
- Low levels of of Non-Volatile
- Solvent use - IPA

## » Techni-PRO

### Wider selection | Higher quality | Stronger value

We've engineered a new private-label brand for world-class production supplies. You probably already know Techni-PRO products as Techni-Tool, Tec-Cut, Techni-Stat, Tec-Tuff, and other brands. Our goal was the same as it has always been: To give you more. More equipment. More supplies. More value.
