ALUMINUM FRAMED RECYCLED RUBBER TACK BOARDS

Specifications

All exposed metal is anodized extruded aluminum. Aluminum framing is permanently attached to the tack surface. The tack surface is composed of 1/16" thick recycled rubber, laminated to a sealed-back 3/8" fiberboard. Available in sizes from 2'H x 3'W through 4'H x 12'W. These boards are backed by a 10-year guarantee.

3 Colors – Confetti(CF), Black(BK), and Tan(TN)
