

Tech Wear Style Sheet

This ESD jacket is designed to ground the garment and the wearer through a ground cord connected at the hip pocket snap. This allows for hands-free movement without tethering one hand, which is required when using a wrist strap connected to a ground cord.

The light-weight fabric makes this style one of our most popular garments.

This garment meets the ANSI/ESD STM 2.1-2013, Category 3 for 100 washes or 2 years.

Part Number	LOJ-13C-(Size)
Style	Traditional Jacket
Colors	White
Sleeve	Long sleeve with ESD knit cuffs
Closure	Front Snap
Length	Hip

Fabric Weight	2.3 ounces per square yard
Specification	ANSI/ESD STM2.1-Cat. 3
Guarantee	100 wash
Country of Manufacture	USA

Standard Ground Cord connected to snap on pocket

(See back for dimensions & additional information)

LOJ-23C-(Size)

This traditional-style jacket comes with 4mm male ground snaps on the hip pockets. This snap connection is for attaching a standard ground cord. Using the garment in this way eliminates the need for a wrist strap. This connection is also used for testing and/or monitoring that the garment and the wearer are grounded. The “Reaching Hand Symbol” next to the breast pocket indicates that this garment is a tool for the prevention of static discharge. This garment is available in most colors for immediate shipment.
