

Product Data Sheet

Product Number: 102ST123

Model: Wrist Strap, 1/8" (4mm) Snap, 6 ft. Coil Cord

Description:

Antistatic wrist straps are designed to safely ground stationary operators working with ESD sensitive components, preventing a build-up of static electricity. The 360° curved wrist band and coil cord set features hypoallergenic silver-plated nylon thread for conductivity. The band is standard with a 4mm male snap. The cords 2.5mm polyurethane coil insulation offers excellent coil memory. A swivel type banana jack increases coil life and prevents cord tangles. The soft, blue woven fabric and curved buckle of the wrist band allows the skin to breathe and makes it very comfortable to wear. The wrist band uses hypoallergenic silver-plated nylon thread for conductivity and has a maximum resistance of 160 ohms.

Picture:

Scope: This specification defines the technical requirements for wrist straps under the brand Techni-Pro. If not otherwise specified, the grounding snap should meet or exceed the requirements of ANSI ESD-

Application:

Antistatic wrist straps are designed to safely ground *stationary* operators working with ESD sensitive components, preventing a build-up of static electricity

Snap Style	1/8" (4mm)
Plug Style	Banana
Material	Polyester with conductive copper sulfide nylon
Cord Style	Single Wire
Resistor	Yes—1Meg
Cord Length	6 Ft.
Size	Adjustable
Color	Blue
