

Product Datasheet

Product NO. : 758PL5341E

Product Type: High Precision Cutters

Made in: Switzerland

Description: The 5341 is a high precision cutter belonging to the small tapered cutter family. This type of geometry and head dimensions offer an advantage to access small areas. The flush cutting edge is suitable to perform clean cuts with some tolerances. The 5341 is equipped with an ESD Ergo-tek handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharges. The blades are hardened to 67HRC hardness.

Head Description: Small Tapered

Cutting Edges: Flush

Cutting Capacity: Soft wire 0.1 mm-1.2 mm (38AWG-17AWG)

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle material: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP
