

Product Data Sheet

Product Number: 758ST1725

Model: Field Service Static Dissipative Grounding Kit, 24 x 24

Description:

A complete kit for working with ESD sensitive items in the field. The Field Service Mat is made from a rugged, three-layer embossed PVC material and provides service personnel with a static free work area for handling sensitive 15ft ground cord with a bulldog clip. The ground cord bulldog clips easily connects to objects to facilitate at ground in the field. The mat is 24"x24" with two 10mm male snaps and two 8" x 12" pockets. The edges are bound for durability. The outer layer is resistant to punctures and tears. A buried conductive layer provides reliable decay of static charges. Lightweight and easy to fold for storage.

Picture:

Scope: This specification defines the technical requirements for field service kits under the brand Techni-Pro. If not otherwise specified, the grounding snap should meet or exceed the requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006

Size	24"x24"
