Product Data Sheet

Product Number: 758ST5530

Model: Techni-Pro 758ST5530 Day-Glow Heel Grounder, 1 MegOhm Resistor

Description:

Hi-Visibility Heel Grounders make it easier to identify personnel wearing ESD compliant grounding devices. Heel grounders provide a path-to-ground for operators that must be mobile. Constructed from durable 1.5" wide rubber in a reversable cup design for an extended life. Yellow hook & loop closure allows for a secure, comfortable fit. A 24" ribbon connects to the conductive rubber to complete the circuit between the operator and the anti-static floor or mat. A buried 1 meg ohm resistor is standard for safety.

Picture:

Scope:

This specification defines the technical requirements for anti-static heel grounders under the brand Techni-Pro. If not otherwise specified, the heel grounders should meet or exceed the requirements of ANSI-ESDS20.20 & ANSI/ESD S9.2-2003

Applications:

Heel grounders provide a path-to-ground for operators that must be mobile. Operators should wear two heel grounders, one for each foot and be used in conjunction with an anti-static floor or mat.

Resistor:	1 meg ohm (+/- 5% tolerance), buried
Color:	Yellow stretch loop, Black/White rubber
Rubber Exterior:	<10e5 ohms, 1.25" wide
Ribbon:	Conductive yarn in gray polyester ribbon
