

Product NO. : **TNP-CTR-HP-241ABLM**

Product type: Precision Pliers

Made in: Switzerland

Description: The 241ABLM is a precision plier belonging to the snipe nose tapered pliers family. The snipe jaws improve visibility. The smooth surface on the jaws prevent scratches while holding. The 241ABLM is equipped with a box joint that eliminates the possibility of “slack” or “play” and ensures long life with minimal wear. The monocomponent ESD handles are suitable to environments and to components susceptible to electrostatic discharge. The jaws are hardened to 45HRC hardness.

Head description: Tapered Snipe Nose, Smooth Jaws

Body material: Stainless steel 410

Handle coating: ESD Polyethylene
