

Product Data Sheet

Circuit Board Holder

TNP100193EA

Product Information

This soldering circuit board holder also known as the helping hands assist in ensuring proper solder joints are maintained. The adjustable arms and alligator clips provide the perfect height required to position the circuit board, so you can work with greater ease and agility.

Kit Includes

- 1 X User Manual
- 1 X Storage tray
- 4 X Auxiliary clip
- 5 X Universal spring
- 1 X Workbench
- 5 X Silicone base
- 1 X Magnifying glass
- 1 X Screwdriver

» Techni-PRO

Wider selection | Higher quality | Stronger value

We've engineered a new private-label brand for world-class production supplies. You probably already know Techni-PRO products as Techni-Tool, Tec-Cut, Techni-Stat, Tec-Tuff, and other brands. Our goal was the same as it has always been: To give you more. More equipment. More supplies. More value.

Technical Details

Magnification	3X
Material	Metal Aluminum Alloy Frame and Cast Iron Base. Glass Lenses
Size	175 x 232 x35mm

Packaging

Part No.	TNP100193EA
----------	-------------

Features

- Base is made of heavy-duty powder metal steel and weighs about 0.66 lbs., ensuring your welding station won't tip over and move. Rubber feet protect the tabletop from abrasion.
- The high-quality stainless steel adjustable gooseneck arm on the soldering helping hands can be adjusted at will and not easy to rebound. Four 6.7" helping hands allow you to completely free your hands for better repair work.
- The soldering station is equipped with a 3x magnifying glass, which can help magnify small electronic components. Third hand tool can improve work efficiency and welding accuracy.
- The alligator clips on PCB holder arm are fixed with screws and can be rotated 360 degrees, and each clip is equipped with an insulating rubber sleeve, which can prevent scratching the circuit of the PCB board and prevent electrical short circuits.
