

Product Datasheet

Product NO. : 758PL162E

Product Type: High Precision Cutters

Made in: Switzerland

Description: The 5162L is a high precision cutter belonging to the extra large oval cutter family. This type of geometry provides excellent resistance and the 5162L head dimensions increase its cutting capacity. The full flush cutting edge is suitable to perform robust cuts. The 5162L is equipped with an ESD Ergo-tek handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharges. The blades are hardened to 67HRC hardness.

Head Description: Extra Large Oval

Cutting Edges: Full flush

Cutting Capacity: Soft wire 0.4 mm-2 mm (26AWG-12AWG)

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle material: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP
