Product Data Sheet

Product Number: 758ST096

Model: Wrist Strap, Adjustable, 12 ft. Cord, Black

Antistatic wrist straps are designed to safely ground stationary operators working with ESD sensitive components, preventing a build-up of static electricity. The soft, blue woven fabric and 360° curved buckle of the wrist band allows the skin to breathe and makes it very comfortable to wear. The band uses hypoallergenic silver-plated nylon thread for conductivity and has a maximum resistance of 160 ohms. The band is standard with a 4mm sized snap and works in combination with most standard coil cords. A swivel type banana plug on the 12 ft coil cord increases life and prevents cord tangles. A 1 meg resistor is included for safety.

Picture:

Scope: This specification defines the technical requirements for wrist bands under the brand Techni-Pro. If not otherwise specified, the grounding snap should meet or exceed the requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006

Application:

Antistatic wrist straps are designed to safely ground *stationary* operators working with ESD sensitive components, preventing a build-up of static electricity

Snap Style	1/8" (4mm)
Plug Style	Banana
Cord Style	Single Wire
Wrist Band Material	Conductive weave and stainless back plate
Resistor	Yes—1Meg
Cord Length	12 ft.
Size	Adjustable
Color	Blue
