

Product Data Sheet

900M-T Longlife Soldering Iron Tip, 2C

TNP100256EA

Type C

Features: The tip of the iron tip of the inclined part of the welding, suitable for the need for more than the amount of welding
Application: suitable for the need for more than the amount of welding, such as: welding area, thick terminals, welding large welding environment.

Technical Details & Cleaning Data

Material	Oxygen-free copper Cu
----------	-----------------------

Weight	About 15.5g
--------	-------------

Iron Tip Type	2C
---------------	----

Tip Size	0.078"(2mm)
----------	-------------

Color	Silver
-------	--------

Length	1.693" (43mm)
--------	---------------

Inside Diameter	0.125" (3.2mm)
-----------------	----------------

Outside Diameter	0.255" (6.5mm)
------------------	----------------

Service Life	50000 solder joints
--------------	---------------------

Country of Origin	China
-------------------	-------

Packaging

Part No.	TNP100256EA
----------	-------------

Product Information

- Advantage: Painted and environmentally friendly soldering iron tip has high temperature resistant, more suitable for high melting point soldering.
- Easy to Use: This inner heating soldering iron tips heat up quickly, has a long service life, easy to tin, and does not produce virtual welding.
- Practical: The welder tip is suitable for 102C/102D,933D soldering iron handles and for 936/939/938/878/898 series soldering stations.
- Application: This soldering iron tip is suitable for soldering machines that require a large amount of tin, such as large soldering area, thick terminal, large soldering pad, etc.

» Techni-PRO

Wider selection | Higher quality | Stronger value

We've engineered a new private-label brand for world-class production supplies. You probably already know Techni-PRO products as Techni-Tool, Tec-Cut, Techni-Stat, Tec-Tuff, and other brands. Our goal was the same as it has always been: To give you more. More equipment. More supplies. More value.
