

Product NO. : **TNP-CTR-HP-ES5441M**

Product type: High Precision Cutters

Made in: Switzerland

Description: The 5441M is a high precision cutter belonging to the small oval and relieved cutter family. The oval and relieved geometry provides excellent resistance, while the 5441M head dimensions offer an advantage to access small areas and to support tip cuts. The flush cutting edge is suitable to perform clean cuts with some tolerances. The 5441M is equipped with an ESD Ergo-tek slim handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharge. The blades are hardened to 67HRC hardness.

Head description: Small Oval & Relieved

Cutting edges: Flush

Cutting capacity: soft wire 0.1-1.2 mm (26-10AWG)

Body material: High carbon-chromium low alloy steel (100Cr6)

Handle coating: ESD safe - Thermoplastic Elastomer TPE + Polypropylen compound PP
