## Products

| Number                                   | Description                                                                                                                                                                                                                                  | Packaging / Case |
|------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|
| <b>TX7101</b>                            | <b>Mini AlphaMop™ / Isolator Cleaning Tool Kit</b> (1) 7" x 4" (10 cm x 18 cm) Thermoplastic Mop Head, (1) 12" (30.4 cm) Fiberglass Handle, (1) 18" (45 cm) Fiberglass Handle, 1 Polyester Pad, (2) Fastening Pins, and STX7114 Starter Pack | 1 kit / case     |
| <b>TX7105</b>                            | Mini AlphaMop™ / ICT Replacement Head Kit, (1) 7" x 4" (10 cm x 18 cm) Thermoplastic Mop Head, 1 Polyester Pad, and (2) Fastening Pins                                                                                                       | 1 kit / case     |
| <i>Mini AlphaMop™ Compatible Handles</i> |                                                                                                                                                                                                                                              |                  |
| <b>TX7120</b>                            | 12" (30 cm), Fiberglass, White                                                                                                                                                                                                               | 1 handle / case  |
| <b>TX7121</b>                            | 18" (46 cm), Fiberglass, White                                                                                                                                                                                                               | 1 handle / case  |
| <b>TX7122</b>                            | 29" - 53" (74 cm - 1.35 m), Telescoping, Fiberglass, White                                                                                                                                                                                   | 1 handle / case  |
| <b>TX7123</b>                            | 60" (1.5 m), Fiberglass, White                                                                                                                                                                                                               | 1 handle / case  |
| <b>TX7183*</b>                           | 55" - 92" (1.4 m - 2.3 m), Telescoping, Aluminum                                                                                                                                                                                             | 1 handle / case  |
| <b>TX10217</b>                           | TexConnect™ Adapter, Aluminum                                                                                                                                                                                                                | 1 adapter / case |

\*Use with TX10217 TexConnect Adapter

For Replacement Pads and Covers, see page 4.

### TECHNICAL DATA SHEET

#### Description

Specially engineered to work with isolators and other small areas, this easy-to-maneuver tool offers lightweight, one-hand operation. With a low-profile, swivel head, the Isolator Cleaning Tool gets into hard-to-reach places.

Engineered for quick cover changes during operation, the padded head allows for a consistent mop across different surfaces without losing cleaning power. The rounded edges clean the isolator corners and prevent scratches or damages to surfaces.

#### Applications

- Isolators
- Small, hard-to-reach areas
- Glove boxes, biosafety cabinets, laminar flow hoods
- Workbenches

#### Industries

|                        |                        |                       |
|------------------------|------------------------|-----------------------|
| Aerospace              | Animal Laboratory      | Biologics             |
| Cleanroom Design/Build | Compounding Pharmacies | Data Storage          |
| Facilities Maintenance | Industrial             | Laboratory            |
| Medical Device         | Microelectronics       | Pharmaceutical        |
| Printing/Graphics      | Semiconductor          | USP <797> / USP <800> |

#### Features & Benefits

- Quick-change system allows the user to replace covers / pads frequently, adhering to strict cleaning protocols
- The polyester pad assures the mop cover conforms to surfaces for consistent cleaning
- Gets into hard-to-reach areas with its low profile, swivel head
- Texwipe's 100% polyester covers provide the cleanest substrates available for cleaning isolators
- Offers one-hand operation with lightweight handles

#### Cleanroom Environment

- ISO Class 2 – 7
- Class 1 – 100,000
- EU Grade A – D

#### Shelf Life

- Mini AlphaMop™ mop heads and handles have an unlimited shelf life.

### TECHNICAL DATA SHEET

#### Polyester Covers

Made from cleanroom-laundered, knitted 100% polyester, these covers are ideal for cleaning processes requiring low particle, extractable and ionic contamination.

- 100% polyester material provides a clean mop cover ideal for walls, floors, and isolator ceilings
- Ideal for processes requiring low particle, extractable and ionic contamination
- Each package includes covers and pads for an optimal fit and is double-bagged for easy introduction into clean environments
- Sterile and non-sterile options available

#### Microdenier Covers

Made from 100% polyester microdenier material that provides enhanced particle lifting, streak-free cleaning, plus enhanced sorption for working with cleaning and disinfecting solutions.

- Enhanced absorbency and quick-wicking performance
- Increased lifting and capturing of small particles
- Compatible with all disinfectants, including quats such as Texwipe's TexQ
- Streak-free cleaning
- Sterile and non-sterile options available

#### Polyester Pads

- The 100% nonwoven polyester pad provides a cushion to ensure the mop covers conforms to the surface for consistent cleaning
- One pad may be used for several covers, depending upon the facility SOP

| <b>TX7120</b>                           | Revolve™ Mini AlphaMop™ Cover/Pad Integrated Covers, Non-sterile      |         | 100 covers / case (10 bags of 10 covers), double-bagged                      |
| <b>STX7120</b>                          | Revolve™ Mini AlphaMop™ Cover/Pad Integrated Covers, Sterile          | ●       | 100 covers / case (10 bags of 10 covers), triple-bagged                      |

### TECHNICAL DATA SHEET

#### Revolve™ Cover/Pad Integrated Polyester Covers

Revolve™ 2-in-1 mop covers, the first sustainable covers made for the cleanroom industry, are made from 100% upcycled polyester and are a part of Texwipe's Revolve™ line of sustainable products.

Revolve™ mop covers contribute to a company's sustainability goals, reducing the amount of post-consumer water bottles going into the landfill and reducing the level of carbon emissions.

- The integrated polyester cover/pad design allows replacing covers and pads in a one-step process
- The integrated design offers high sorption capacity, which is ideal for spill control, cleaning, and solution application
- Revolve™ processing provides low levels of ions, Non-Volatile Residues (NVRs), particles and fibers for use in critical cleaning applications and environments
- Autoclave safe. Sterile available

Find more information on [Revolve™ mop covers here](#). Ideal for spill control, cleaning, and solution application.

#### Applications

- Mopping and cleaning large and small surfaces
- Applying and removing disinfectants
- Spill control
- Cleaning with solvents such as isopropyl alcohol (IPA), ethanol, acetone, and degreasers
- Appropriate for use with temperatures less than 400°F (205°C)

#### Sterile Products

- Gamma irradiated to a Sterility Assurance Level of  $10^{-6}$  according to AAMI Guidelines
- Certificates of Compliance, Analysis and Processing / Irradiation available at [www.texwipe.com/certifications](http://www.texwipe.com/certifications)
- Sterile Validation Documentation available upon request

#### Cleanroom Environments

- ISO Class 3 – 7
- Class 1 – 100,000
- EU Grade A - D

#### Shelf Life

- Non-Sterile – 5 years from date of manufacture
- Sterile – 3 years from date of manufacture
