

Thermo Scientific Arctic Express Cryogenic Shippers with Datalogger

Maintain the chain and your peace of mind.

Maintaining the cold chain is paramount to your samples, including when they are in transit. Thermo Scientific™ Arctic Express™ cryogenic shippers are designed to ensure the maintenance of sample integrity when movement of your samples is required.

Arctic Express models are now available with a built-in 21CFR, part 11 compliant datalogger, providing you with additional peace of mind that your important samples have been maintained during transport.

Shipping containers

- Innovative material absorbs liquid nitrogen to prevent spillage during shipment
- 14- and 21-day liquid nitrogen holding times allow specimens to be shipped safely

Not available outside North America

- Durable construction and sturdy base allow dry shipper to withstand rough handling
- Lockable lid prevents unauthorized entry
- Easily transported via most common carriers
- Lightweight aluminum design and convenient pail-style handle

Datalogger

- 21CFR11 compliant
- High- and low-programmable alarm settings
- Temperature precision +/- 0.5°C
- Digital display
- Easy to use: automatically generate PDF report, summarizing shipping temperatures
