

## HG1594

### D-Ring Sport Heel Grounder

Heel grounders provide ESD grounding protection for staff on the move.

The HG1594 from Transforming Technologies is ideal for boots and cross-training athletic shoes. Constructed from durable materials and featuring a comfortable and secure D-ring closure, the HG1594 provides protection for staff on the move.

These heel grounders connect the person wearing them to ground via a proper floor mat or flooring material. Wearing the conductive ribbon inside the shoe or sock assures proper electrical contact with the user. A rugged 1 meg ohm molded resistor is standard. Heel grounders are worn on both feet to provide consistent grounding while in motion.

Meets or exceeds requirements of ANSI ESD-S20.20.

### Features

- D-Ring Closure
- Molded Resistor
- 35mm Cup Design

#### Specifications:

Resistor: 1 meg ohm (+/- 5% tolerance), Molded

Part Numbers:  
 tol- HG1594: Heel Grounder, Sport, D-ring, 1 meg

Color: Black D-ring, Blue hook and loop, Red Elastic, Black/White rubber

Rubber Exterior: <math>10^5</math> ohms, 35mm wide

Ribbon: Conductive yarn in gray polyester ribbon

#### Applications:

Heel grounders provide a path-to-ground for personnel that must be mobile. They must be used in conjunction with an ESD floor or mat.
