

Digital Pocket-sized NSF Thermometer offers Precision Measurements

Functions

- Temperature range:
-58° to 572°F (-50° to 300°C)

Features

- Protective boot
- Magnetic mount
- Water resistant
- Min/Max
- Data hold
- Auto power off
- 3-Year limited warranty

Includes

- Battery (AB13)

Applications

Measure ambient temperatures
Measure liquid temperatures

Specifications

Temperature Range	-58° to 572°F
Accuracy	±1.8°F in the range -22°F to 302°F otherwise ±4°F
Resolution	±0.1°F for -19.048° to 199.9°F otherwise ±1°F from 200°F to 300°F
Update Rate	Approximately 1 second
Certification	CE and NSF listed
Battery	AB13, (SR44W)
Warranty	Three year limited
