

EPSON® DC-20

DOCUMENT CAMERA

Zoom ahead of the class with amazing image quality.

The perfect tool for a dynamic learning environment, the EPSON DC-20 makes it easy to display books, experiments and 3D objects, making lessons more interactive and enjoyable. Write annotations over live images quickly and easily by connecting a computer mouse directly to the camera — no computer necessary. The DC-20 also features a large imaging sensor, ensuring high-quality, clear images in any light. Students can see the finest details with the powerful 12x optical zoom and 10x digital zoom. Use the included microscope adapter to simultaneously share microscopic events with the entire class. The DC-20 also features 30 frames-per-second video (at full resolution) to display your lessons with smooth performance and minimal delay. Record classroom lessons with the DC-20's camera and built-in microphone, or plug in your own external microphone. Take advantage of the included software to upload what you've captured to popular websites, such as YouTube® or SchoolTube®, for students who have missed a class or want to review lesson materials.¹ With innovative teaching tools, advanced connectivity, and a compact, durable design, the DC-20 is an ideal fit in any classroom.

Deliver engaging lessons with amazing close-up detail — 12x optical zoom and 10x digital zoom **Remarkable image quality** — large imaging sensor provides sharp, clear images in any light **Future-ready connectivity** — HDMI digital connectivity for high-definition video

The perfect partner to EPSON projectors — the best-selling projectors in the world.

Epson understands education and has a solution no matter what your teaching scenario. Built with image quality and reliability in mind, EPSON projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From long-throw projectors designed for traditional educational settings to ultra-short-throw, interactive, and all-in-one solutions built for progressive classrooms, Epson has the model made for you.

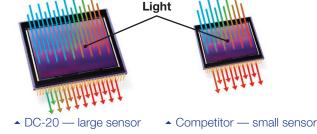

Auto-select output resolution (1080p/720p/ SXGA/WXGA/XGA) for easy setup and perfect images every time

The DC-20 automatically detects the native aspect ratio of EPSON projectors and selects the correct output resolution to match. It is capable of displaying 1080p, 720p, SXGA, WXGA and XGA resolutions.

Higher quality images with new large sensor

The DC-20 features a large, highly efficient imaging sensor that captures more light per pixel. As a result, you get brighter images with amazing quality and detail.

Amazing image quality and performance

- · Large imaging sensor for crisp, clear images in any light
- 12x optical zoom plus 10x digital zoom for ultra-sharp detail and clear magnification
- 30-frames-per-second video at full resolution for ultra-smooth video performance and minimal delays

Eco Features

- RoHS compliant
- Recyclable product²
- Epson America, Inc. is a SmartWaySM Transport Partner³

Fast setup with advanced connectivity and flexible teaching tools

- Versatile connectivity including:
 - USB and VGA for easy connection to a PC/Mac®
 - HDMI, VGA and Composite for easy connection to a projector
 - SD card slot⁴ and USB flash drive port
 - Microphone input to connect your external microphone, so you can record audio⁵
- 12" x 17" capture area makes it easy to display two full pages
- Display live and captured images side-by-side using the Split Screen function, perfect for comparing "before" and "after" photos
- Microscope adapter included connects to any standard microscope eye-piece to share magnified images with the entire class
- Capture, store and present images via 1GB internal memory, SD card slot⁴ or USB flash drive port

Microscope adapter included (microscope not included)

Versatile connectivity

Built-in SD card slot4

PC-free annotations

Write or draw over live images simply by connecting your USB computer mouse to the DC-20.

Additional Features/Benefits

- One-touch AV recording
- Built-in microphone to record audio with video, or plug in your own external microphone⁵
- · Great positioning flexibility and stability
- Camera head rotates ±90 degrees to capture many angles
 can also be used as a webcam to capture students,
 notes on the whiteboard, and more
- Larger intuitive buttons and icons for easy navigation and control

Great positioning flexibility, 90°

Rotating camera head ±90°

Intuitive buttons and icons

Advanced application software included (PC and Mac compatible)

- Make annotations over live and captured images
- Make time-lapse movies to record and create projects such as the growth of plants, organic processes and more
- Easily upload your videos to popular education websites like YouTube and SchoolTube¹
- Tag captured images/videos for easy file management and organization

Time-lapse function

Compact, foldable design

The DC-20's sleek, compact design makes it ideal for space-constrained classrooms or for summertime storage.
