

FLIR VS70

Video Borescope

The FLIR VS70 is a tough shock-resistant videoscope that features intuitive handset controls that enable users to maneuver the narrow camera probe into extremely tight spaces to deliver sharp, vivid video and images. Advanced inspection solutions, expansion cameras, and add-on accessories enable users to expand the VS70 to address many different applications— like building inspections, industrial maintenance, aircraft and marine inspections, vehicle service and HVAC repairs.

Rugged and Durable.

Built tough to handle inspections all day long

- Waterproof (IP67 rated) Rubber-reinforced display unit is capable of withstanding two-meter drops (6.6')
- Extended battery life accommodates a full day of inspections without recharging
- Waterproof IP67 cameras with tungsten-reinforced articulation

Customizable.

Many applications for one system, with optional camera expansion and add-on accessories

- Multiple articulation options including two-way, two-way wireless and four-way wireless controls
- Handset controls allow users to select 180-degree or 90-degree camera angles with dual channel camera
- Base system is also available with a wide range of handsets, camera probes, and wireless options

Document your findings.

Create reports quickly and easily

- Record video and images that transfer to a PC via SD card or USB port
- Voice annotate video recordings to add critical details (with included headset)
- Grab still images from captured video directly on the base unit

Convenient USB charging system for on the go inspectors

Record video with audio during pipe inspections
