

# DocCAM 20 HDBT

## In-Ceiling Document Camera

DocCAM. More Than Just a Document Camera.

If you're looking for an overhead video camera with high-definition image quality, the Vaddio DocCAM is the perfect choice. The DocCAM 20 HDBT is a high-definition, recessed in-ceiling document camera with 20x optical zoom, 1080p/60fps resolution and a 59.5° horizontal field of view to capture more of the table.

So whether it's a video conference call, a training session or online learning course, count on the DocCAM In-Ceiling Document Camera for best-in-class image quality – at a price that won't break the bank.

Ideal for:

- Higher education classrooms
- Medical schools and operating theaters
- Technical training sessions
- Video conference rooms
- City council chambers
- Courtrooms and evidence viewing
- Art schools - illustrative demonstrations
- Culinary schools - cooking demos
- Construction and architectural firms - reviewing plans

## HD Quality. Seamless Video. Architecturally Elegant. Easier Installations.

The DocCAM 20 HDBT has an in-ceiling, recessed design which allows it to blend into nearly any environment. Equipped with a OneLINK HDBaseT port, the DocCAM 20 HDBT easily connects to Vaddio OneLINK extension systems or other HDBaseT-compatible devices – extending video, power, and control up to 100 meters (328 feet).

### Enhance the experience with advanced features

- 20x optical zoom – capture the finest detail; well-suited for 20 ft (6 m) ceilings
- 1080p/60fps resolution for razor sharp image clarity you expect from Vaddio
- 59.5° horizontal FOV to capture more of the table
- HDBaseT technology - simplify installation and integration
- USB 3.0 output – send uncompressed, high resolution video over USB by pairing with the OneLINK Bridge AV Interface. Capable of 1080p/60fps for the smoothest video available. Also supports USB 2.0
- Remote management – intuitive browser-based user interface for remote configuration, management, and control
- Laser alignment – frame the subject quickly and easily
- Color adjustment – automatically or manually adjust image color, shading, backlight, and wide dynamic range to optimize color for different settings
