

Image capture and mark-up software

- View, capture, mark-up and document images – quickly and simply
- Easy control of camera settings
- Record .AVI video
- Multi-language software

FM 557119

Vision Engineering Ltd has been certified for the quality management system ISO 9001:2008.

Image capture and mark-up software

Quickly and simply capture and document images with ViCapture software.

Designed specifically for use with compatible Vision Engineering products*, ViCapture allows users to quickly optimise camera settings, capture an image and add any required mark-up.

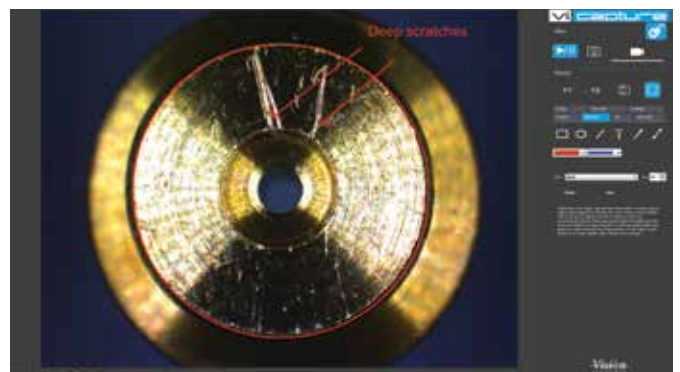

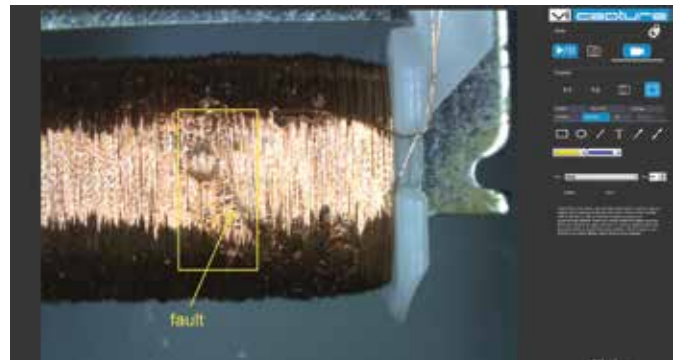

All in a highly intuitive, easy to use software package.

Highlights

- ✓ View, capture, mark-up and document images, quickly and simply
- ✓ Mark-up with text, arrows, shapes etc.
- ✓ Optimise and save camera settings for easy recall

*Compatible with...

- ✓ Mantis Elite-Cam HD eyepiece-less stereo microscope
- ✓ Lynx EVO eyepiece-less stereo microscope
 - with Smart Cam integrated HD camera option
 - with Smart Cam 5 integrated 5MP camera option

Image capture & video recording, made easy

With large icons and tabbed menu panel, the software provides highly intuitive operation – even for first-time users.

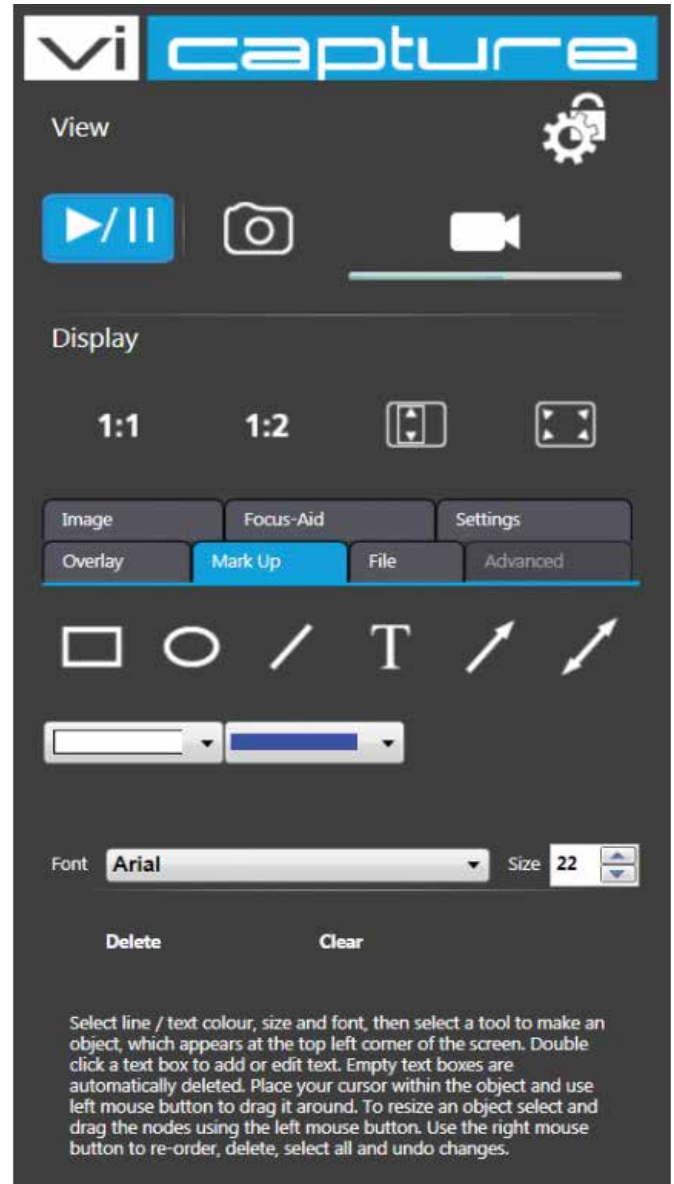

Quickly optimise camera settings to view the best image, then simply click the image capture or video record icons. Settings can be saved for easy recall – for example, quickly recall optimised camera settings for highly reflective, light or dark-coloured subjects.

Image mark-up tool

Important features can be clearly highlighted with a choice of shapes, arrows and text – in a selection of colours for best contrast.

Features

- Easy control of camera settings
- Save images as JPG, BMP, or PNG files
- Mark-up with text, arrows and shapes
- Record .AVI video for up to 30 seconds
- Focus aid – displays a numerical value for peak focus
- Save optimised camera settings for easy recall (e.g. highly reflective subjects etc.)

Multi-language software

Supported languages: English, French, German, Italian, Spanish, Portuguese, Polish, Turkish, Russian, Chinese, Japanese, Korean

System requirements

Windows 7 (or later), min. 500MB of storage, Intel i3 or better, 2GB of RAM, .NET framework and is compatible with Vision Engineering products*

Do you require on-screen measurement and reporting?

Vision Engineering has a range of software solutions offering enhanced functionality, including on-screen image measurement and advanced reporting.
