

QUMI Q6

Compact and Powerful, Ultra-light LED Pocket Projector Primed for Digital HD Projection

FEATURES

- Native WXGA resolution (720p)
- Up to 800 ANSI lumens of brightness and 30,000:1 contrast for brilliant and sharp images
- Project a large and wide screen image up to 2.3m (90") in diameter
- Long-life, energy-efficient LED lamp with an estimated 30,000 hours of operation
- Wirelessly stream and project documents, photos, movies and other content with the integrated wireless system
- MHL device compatibility for streaming of video and audio content from a compatible mobile device
- Integrated media and document viewer conveniently plays documents, photos, videos and audio files without connecting to a PC
- Display content directly from a USB flash drive or from the on-board memory
- Advanced display connectivity includes: HDMI, USB and internal Wi-Fi
- Up to four devices can simultaneously display separate content* (select materials only) onto screen (4-to-1 split screen), with the EzCast Pro App
- 3D compatibility with DLP[®] Link[™] for dazzling and realistic life-like images
- Built-in, two watt audio speaker with multiple audio ports for easy connection to other audio devices
- Touch-sensitive keypad with illuminated backlit controls
- Seven exciting colors: black, white, light blue, red, orange, gold and charcoal gray
- Thin and lightweight profile for mobile flexibility

The QUMI Q6

The Qumi Q6 is a feature-rich, multimedia pocket projector with an ultra-light and thin profile. Business travelers and home entertainment enthusiasts will find the Q6 to be the ideal portable companion. It delivers bright images with WXGA resolution, 800 ANSI lumens and a 30,000:1 contrast ratio. Packed full of advanced display features, the Q6 projects from a variety of devices including digital cameras, laptops, smart phones, tablets, USB and directly from its 2.5 GB (user-accessible) on-board memory. It's incorporated with an embedded viewer for PC-less playback of documents, photos, videos and audio files. Wireless content sharing from Android and iOS devices.
