<b>Article number:</b>	3967/9 TX SXL Multicolour HF Stainless 1	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82041100

- The holding function on the long arm keeps screws securely on the tool
- Extremely high corrosion protection thanks to ice-hardened stainless steel design
- Compact and easy to remove - stored in a 2-component plastic clip
- Handle-friendly hose jacket with tool finder "Take it easy": Colour coding according to size

Set of high quality stainless steel L-keys for internal TORX® screws. Very corrosion-resistant due to ice-hardened stainless steel material of the L-key, avoiding the transmission of extraneous rust in stainless steel screw connections. With holding function on the long arm: The clamping force resulting from the surface pressure between the output tip and the screw profile holds the screws securely on the tool. With extra long arm for working in a low position. The grip-friendly hose jacket facilitates screwdriving even at low temperatures. "Take it easy" tool finder with colour coding by size. With a practical clip made of durable material for secure holding of the L-key while at the same time allowing easy removal.

**3967/9 TX SXL Multicolour HF Stainless 1 L-key set with holding function, stainless,  
9 pieces  
L-Keys for TORX® Screws**

**Stainless L-keys**

Wera L-key with holding function:  
967/9 TX XL Multicolour HF 1  
(9-piece set) and 950/9 Hex-Plus  
Multicolour HF 1 (9-piece set)

Stainless L-keys are hardened to  
the same strength as conventional  
(carbon) steel tools, and prevent  
extraenous rust forming.

**With sleeve**

L-keys with a thermoplastic sleeve  
are manufactured out of easy-to-  
grip, circular material. The sleeve  
ensures that work is safe and  
comfortable even at low  
temperatures. Colour coding and  
large stamp to enable the desired  
L-key to be easily located.

**Holding function for recessed  
TORX® screws**

The HF tools developed by Wera  
are ideal because they feature an  
optimised geometry of the original  
TORX® profile. The wedging  
forces resulting from the surface  
pressure between the drive tip and  
the screw profile mean that  
TORX® screws made according to  
Acument Intellectual Properties  
specifications are securely held on  
the tool!

**Take it easy tool finder system**

Take it easy tool finder system -  
with profile and size colour-coding  
for quick and easy tool selection.  
Colour-coded system for hexagon  
drive screws (L-Keys, Zyklop bit  
sockets), external hex drive screws  
and nuts (Joker wrenches, Zyklop  
sockets and Zyklop bit sockets  
with holding function), and TORX®  
drive screws (L-Keys, Zyklop bit  
sockets).

**Secure hold and easy removal**

The wear-resistant clip material  
ensures that the L-keys are  
securely held yet are easy to  
remove.
