

Kraftform Kompakt Pistol RA, 7 pieces

Kraftform Kompakt with Ratchet Function. - Fine tooth system for precision work.

EAN:	4013288180360	Size:	150x110x60 mm
Part number:	05051030001	Weight:	384 g
Article number:	KK Pistol RA	Country of origin:	CZ
		Customs tariff number:	82079030

- Fine-toothing for a small return angle of only 8°
- Simple to use switchover ring
- Quick-release chuck with Rapidaptor technology
- Strong permanent magnet for secure fit of bits
- Multi-component Kraftform pistol handle for greater leverage effect

Wera compact tool with multi-component Kraftform pistol handle for high working speeds and particularly ergonomic screwdriving. Integrated bit magazine in the handle. Includes a ratchet: fine-toothing with a small return angle of only 8°, switchover (right, fixed, left), maximum torque of up to 50 Newton metres; hexagonal blade with 1/4" hexagon socket head take-up and Rapidaptor technology, magnetic. 6 bits PH, PZ and TORX® in a length of 25 mm that fit in holders as per DIN ISO 1173-D 6.3. Comes with a practical holster for belt attachment.

Kraftform Kompakt with Ratchet Function. - Fine tooth system for precision work.

Kraftform Kompakt

Kraftform Kompakt with ratchet function for high working speeds

Why is the right tool so often not at hand? The reason: too many tools and overly-heavy tool bags can make it bothersome to carry them onsite. So for us it was a clear challenge: to design a tool that is suitable for a whole host of applications and can be easily taken along to jobs at other sites. Our solution: Kraftform Kompakt tools. A handle into which blades with a range of different profiles can be inserted.

Fine-tooth design

Fine action 44 tooth system for precision work. Great time savings when screwdriving.

Fine adjustment work

Additionally, the lockable neutral position permits exact adjustment work without having to change the screwdriving direction every time. Lockable neutral position for fine adjustment work.

Changing ratchet direction

Ergonomic design of the reverse direction switch.

Chuck-all

The Rapidaptor quick-release chucks hold 1/4" DIN ISO 1173-C 6,3 and E 6,3 as well as Wera series 1 and 4 bits.

Rapid-in and self-lock

The bit can be pushed into the adaptor without moving the sleeve. The lock is activated automatically as soon as the bit is applied to the screw. Bits are held securely and wobble-free.

Rapid-out

Simply push the sleeve forward to change the bit. The spring mechanism lifts the bit off the magnet and unlocks the tool. The bit can be easily removed. The rapid-out function makes it easy to remove even the smallest bits without extra tools.
