

WAV Pro Wi-Fi Receiver

REAL-TIME AUDIO WI-FI RECEIVER

Discover exceptional audio quality with the easy-to-use WAV Pro Wi-Fi Receiver. The WAV Pro audio receiver uses a new mobile device designed to be a dedicated assistive listening device to meet ADA requirements.

The large 6.8" full HD+ Infinity display provides easier readability for administrators during setup and for end-users to select channels and other settings.

Key Features

- **Battery Longevity.** Up to 40 hours of continuous audio streaming.* (*Under normal use conditions)
- **New Mobile device.** The only new mobile device dedicated solely for assistive listening.
- **Large display.** Large 6.8" full HD+ Infinity display
- **ADA Compliant.** Meets ADA hearing compliance for a dedicated assistive listening device.
- **Bluetooth®-Enabled.** Streams audio to Bluetooth-enabled headphones, speakers, and hearing aid telecoils when used with Williams AV neckloop.
- **Compatible with Williams AV Wi-Fi Transmitters.** WaveCAST, WaveCAST C and WaveCAST 8, FM+ and FM+C, and IR+ transmitters.

Applications

- Assistive Listening
