Wohler Snap & Sweep®

Effective sweeping with rotating cleaning tools

With Wohler Snap & Sweep® quick and thorough sweeping is a simple one man show. Different cleaning tools can be connected to the sweeping rods with snap-in quick connectors. The perfect preparation for every on-site sweeping situation. The rods can be rotated by a cordless screwdriver or drill, so that even persistent soot will be easily removed. You can attach additional rods in seconds, so that you only work with the rod length you need: Step by step, rod by rod you can work through the whole chimney. The Wohler Snap & Sweep® carrying bag ensures clean transportation and a clean work area as well, because it can also be used as a protection pad.

Simple. Quick. Professional. Your customers will be impressed!

CLICK TECHNOLOGY   **LIGHT WEIGHT**   **RELIABLE**

‣ One system – numerous applications: Stainless steel chimneys, large brick chimneys, basic cleaning before reconstruction

‣ Stable, robust, flexible

‣ Gentle sweeping with brushes and nylon wires and powerful sweeping with chains

‣ One-man-operation: You do it all by yourself

‣ Snap-in quick connectors for time saving handling

‣ Rotating power sweeping driven by cordless screwdriver or drill

‣ Perfect rod length for every job requirement

‣ Comfortable and clean transport in the carrying bag

‣ Stable synthetic plug-in connection – Sweeping without damage even in stainless steel chimneys

Unused tools can be placed on the open carrying bag to keep the working area clean.

With just one click you affix the sweeping attachment to the rod.

The universal rotary head can be equipped with chains. So even persistent soot is no longer a problem for you.

For intensive cleaning, use a cordless screwdriver or drill to rotate the rod.

Cleaning rod with snap in quick connectors

Sweeping rods with synthetic 2-point snap-in quick connectors, ideal power transmission and scratch-free cleaning even of stainless steel chimneys.

Perlon brush

Perlon brush with click lock, available in different sizes and ideally suited for cleaning chimneys, stainless steel and plastic pipes.
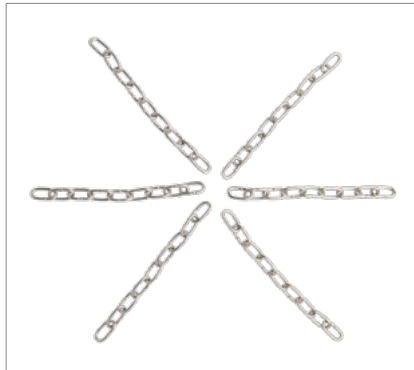

Carrying bag for rods

Carrying bag for cleaning rods for clean transport. Completely rolled out an ideal working and set-down surface.
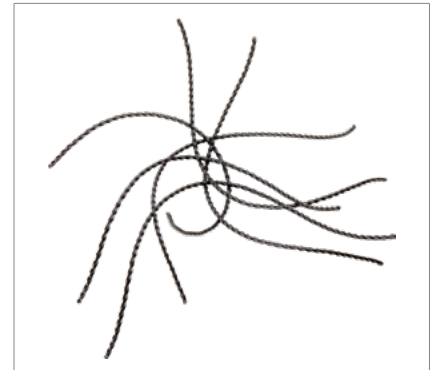

Universal rotary head

Universal rotary head with snap-in connector for quick insertion of chains or nylon wires. This is how you are always perfectly suited to the requirements on site.

Stainless steel chain

Stainless steel chain for removing soot from masonry chimneys. Easy to attach to the universal rotary head and with high cleaning performance.

Nylon wires

Nylon wires for easy and efficient cleaning in all chimneys, even in fragile clay pipes. Easy to attach to the universal rotary head and with gentle but thorough cleaning capability.

Drill adapter

Drill adapter for connecting a cordless screwdriver to the cleaning rods. More cleaning power and higher comfort.

Protection bag

Protection bag for clean transport and storage of sweeping attachments. Everything directly at hand.

Cleaning rod with higher flexibility

Ideal for ventilation systems.
Sweeping rods with synthetic 2-point snap-in quick connectors, ideal power transmission and scratch-free cleaning even of stainless steel chimneys.
