

Picture Size / Distance camera to working surface

This distance chart gives image sizes in 16:10 image ratio, for a range of differing installation heights, measured in millimetres from the bottom of the Visualizer housing to the working surface.

Distance in mm	VZ-C12 ³ and VZ-C32 ³ (tele zoom system)			VZ-C6 (wide angle system)			VZ-C3D (wide angle system)			EYE-10 and EYE-12 (wide angle system)		
	Width of smallest picture with 4x digital zoom	Width of smallest picture with optical zoom	Width of largest picture	Width of smallest picture with 4x digital	Width of smallest picture with optical zoom	Width of largest picture	Width of smallest picture with 4x digital	Width of smallest picture with optical zoom	Width of largest picture	Width of smallest picture with 4x digital zoom (EYE-12)	Width of smallest picture with optical zoom	Width of largest picture
500	-	-	-	-	-	-	-	-	-	13	52	439
