The newest generation Micro-Shear® Flush Cutter. Tough alloyed steel, state of the art heat treating and ultra-precise CNC grinding combine to create the ultimate shear cutter.

The advanced ergonomic design, coupled with our exclusive Xuro-Rubber™ grips, Light Touch™ return spring and glare eliminating black finish ensure operator comfort, even in high volume and large capacity applications.

Tapered head design allows positioning, even on fine pitched leads.

Flush cuts soft wire up to 14 AWG (1.6mm).

ESD-safe hand grips conform to ANSI/ESD.S20.20 and DOD-HDK-263 and have a surface resistivity of 1×10^6 - 1×10^9 .
