The newest generation Micro-Shear® Flush Cutter. Tough alloyed steel, state of the art heat treating and ultra-precise grinding combine to create the ultimate shear cutter. The advanced ergonomic design, coupled with our exclusive Xuro-Rubber™ grips, Light Touch™ return spring and glare eliminating black finish ensure operator comfort, even in high volume applications.

Tapered head design allows positioning, even on fine pitched leads.

Overall Length: 5 inches (127 mm)
Cutting Capacity: 14 AWG (1.6mm)
Rockwell Hardness: 56-58 Rc
Type of Cut: Flush
Additional Features: Lead Retaine

Note: not for use on hardened wire
