

2175ET-Professional Sprue Cutter

Type of Tool:	Project type:	Special	Wire size:	Material(s):
Sprue Cutter Cutter	Plastics De- Gating Plastic Kit Modeling	Features: Full Flush Cutting		Plastic Sprue Plastic (de- gating)

Designed for scale modelers by a scale modeler!

Longer, low profile cutting jaws easily reach into tight, confined spaces while the Micro-Shear® blade by-pass cutting action leaves smooth, clean cuts without pinching or damaging the delicate part.

A "must have" tool for every master modeler.

Recommended for use on soft plastic only
