

**2175F-Maxi-Shear™ Flush Cutter with Lead Retainer**

An extremely durable and versatile wire cutter featuring Xuron's patented Micro-Shear® Flush cutting action. Tough enough for harness and cables with the precision to cut material less than 1 mil. thick or work in high density areas.

Low profile lead retainer prevents cut wires from flying and potentially damaging sensitive components.

Handles are sized and shaped for comfort and optimum leverage. Non-protruding, life time warranted flat spring provides "feel" without excessive tension.

Overall Length: 5.8 inches / 148 mm  
 Cutting Capacity: 14 AWG (1.6 mm) Soft Wire  
 Rockwell Hardness: 54-56 Rc  
 Type of Cut: Flush  
 Additional Features: Lead Retainer
