

SPEC SHEET

590F-Model 590F Micro-Pneumatic™ Cutter with Lead Wire Retainer

Designed specifically for high volume manufacturing environments where ergonomics and productivity are of prime importance.

Sized to fit comfortably in the operators hand, the Model 590F Micro-Pneumatic™ Lead Cutter is light weight, ultra-quiet and fast acting. Requires only 50 p.s.i. air pressure. Flush cuts soft wire up to 16 AWG (1.27mm).

The 590F has the added benefit of a lead retainer, designed to catch cut-off wires.

Unit includes a 6 foot (1.83 meter) air supply line with a 1/8" NPT termination.
