

Interactive Projector Board

Part Numbers: 2G5KX-XX

SURFACE:

The board is made of 28 gauge (0.015") porcelain steel on 3/4" Hexacomb cardboard with a 26 gauge (0.018") galvanized steel backer. The porcelain steel has two options for finishing: low gloss white or standard gloss white.

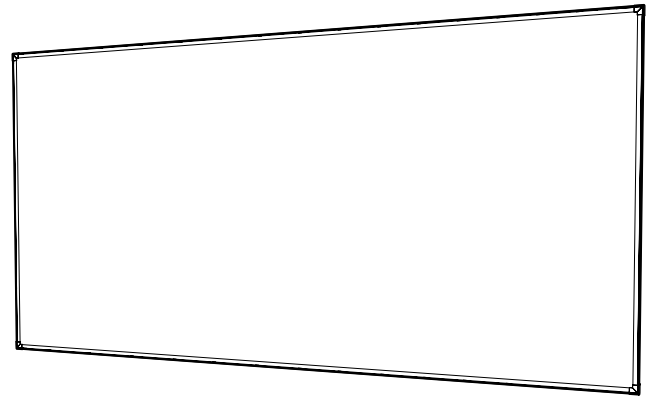

For the best performance with the interactive projector, there is a flatness guarantee of less than 3mm across the board surface.

The board is magnetic for more versatility.

BRIO TRIM:

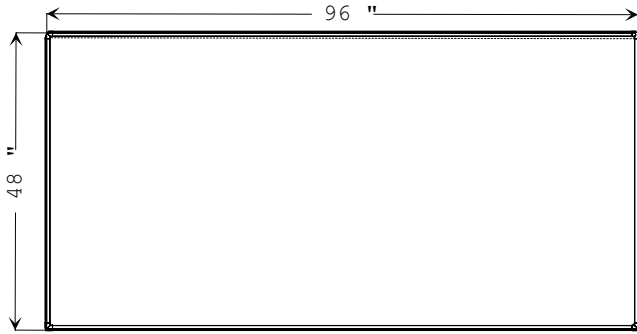

The trim is made of 1.8 mm thick 6063-T5 aluminum alloy extrusions and anodized with a clear finish.

The plastic corner pieces are color matched to the trim for a low profile finish.

**COMPLIANCE:**

SCS Indoor Advantage Gold certified.
