

DOT ROCKING STOOLS

MOORECO™

CONSTRUCTION & FEATURES:

- Active seating perfectly sized for anyone provide hours of balanced learning or working. Rocking motion created by a smooth black base allows these cylindrical soft seats to create rhythmic micromovements that help release excess energy.
- Dot Rocking Stools come in two diameters (15" and 18") and in four heights: extra low (5"), low (12"), medium (15"), or high (18").
- All Dots are ideal for engaging the core muscles and allowing motion while working to create more focus. The extra low Dot can be used as a stool or kneeling platform.
- Stacks for easy storage or use our new Dot Cart for mobile storage.
- Available with a rocking non-skid base in black plastic.
- Available through our graded-in fabric program or COM options. Custom embroidery also available. Call for details.
- SCS Indoor Advantage Gold Certified.
