

STATIC SOLUTIONS WITH SAVINGS

HIGH FREQUENCY
IONIZING GUN

Features: The B486710AG ionizing gun is the perfect solution for those who need pin point ionization of static sensitive parts. While eliminating static charge, it also removes any charged particles or debris that can collect on components. The hand held design also provides the freedom of use for operators.

Blow-Off Gun
B486710AG Blow-Off Gun

- Modern Ergonomic Design
- Built-In Piezelectric Transformer
- Fast Descay Time
- Tungsten Alloy Ion Pins
- No High Voltage Cords

HIGH FREQUENCY
AIR SNAKE

Features: The B48614SF ionizing Snake is the perfect solution for those who need pin point ionization of static sensitive components. While eliminating static charge, it also removes any charged particles or debris that can collect on components. The adjustable neck provides the freedom of use for operators as well as precision ionization.

Ionizing Snake
B48614SF Ionizing Snake

- Auto ion balance
- Abnormal HV alarm
- Adjustable neck
- LED indicators
- Built in HV power supply
- Alloy discharge needle

HIGH FREQUENCY
AIR NOZZLE

Features: The Botron piezoelectric ionization air nozzle is designed to eliminate static charge and other harmful contaminates. As with our other ionizers the B48NOP-S features an abnormal HV alarm and ionization indicator. It's uniquely compact design make this unit very versatile in tight areas that require ionization.

Ion Air Nozzles
B48NOP-S Ion Air Nozzle w/ NOP-60S tip
B48NOP-P Nozzle Tip
B48NOP-T Nozzle Tip
B48NOP-D Nozzle Tip
B48NOP-B Nozzle Tip
B48NOP-60S Nozzle Tip (shown on Ion Air Nozzle)

NEUTRALIZING
STATIC BAR

Features: Botron's Neutralizing Static Bars are fixed, designed to eliminate static charging. Used in electronics, printing and other industries. Power supply sold separately.

- Cut to fit size
- Used with B487000 HV power supply
- Operating voltage 110 or 220V
