eBeam® capture

$$a(bc) = (ab)c$$
$$a+b = b+a$$
$$ab = ba$$
$$a(b+c) = ab+ac$$

The End of "Do Not Erase!"

eBeam Capture allows you to transform the dry-erase content written on a whiteboard into files that can be saved, shared and retrieved.

Brainstorm
Quickly illustrate visual ideas, write notes, and draw diagrams on your whiteboard. As you teach, all your notes record simultaneously on your computer. As you change the content on your whiteboard, the digital file changes too.

Stream
Keep students and colleagues on the same page. Broadcast your whiteboard in real-time across the internet using the secure eBeam server. Remote participants may join the session and save the notes locally.

Save, Edit and Distribute
With your whiteboard files stored on your computer, you can reference, reuse or forward to students or colleagues for further collaboration at any time.

Capture and store whiteboard content and create a broader, more impactful educational process with eBeam Capture.

Why eBeam Capture?

Improve Student Engagement

Preserve classroom brainstorms on-the-fly

Capture, archive and share lessons from any whiteboard

Allow remote students to see physical whiteboard notes

Motivate students by bringing them to the board to use a fun learning tool

Create an educational community by streaming your whiteboard and collaborating with anyone, anywhere, anytime

Record whiteboard lessons with audio and create an online library for distance learning

Turn captured lessons into student assessments by editing the file and creating homework assignments or quizzes

Increased Functionality

Complements your existing eBeam hardware and classroom whiteboards

Portable and easy-to-use

Cost-effective with longest battery life on the market

Technical Specifications

Package Contents

- 4 Marker Sleeves
- 1 Digital Eraser
- 10 Lithium batteries
- 2 mounting plates
- 4 Expo Markers
- 1 eBeam Shortcut Strip
- eBeam Capture™ software

Marker Sleeves

- Weight: 1.1oz (31g)
- Power: 2 lithium coin batteries
- Battery life: 50 continuous hours – with auto shut-off

Product Requirement

- eBeam Capture must be used with eBeam Edge or Engage

Active Capture Area

- 7 ft (213 cm) x 5 ft (152 cm) with Engage
- 9 ft (275 cm) x 5 ft (152 cm) with Edge

Warranty

- 3 year limited

Windows®

- Windows XP, 7 & 8
- Intel Pentium Dual-Core, 1.4GHz, 2.1 GB RAM
- 120 MB of available disk space recommended
- CD/DVD ROM drive or Internet connection

Macintosh®

- OS 10.6 or higher
- Intel Core Duo, 1.5Ghz, 2GB RAM
- 120 MB of available disk space recommended
- CD/DVD ROM drive or Internet connection

Empowering you to interact, share, create, learn and educate in your interconnected world.™
