

# GroupSTATION™

## Complete Group Collaboration Appliance for Small and Medium Sized Rooms

**Part Numbers:**

999-8900-000 North America  
999-8900-001 International

**Image:** GroupSTATION Sound Bar and Camera Module

The Vaddio™ GroupSTATION is a complete media collaboration appliance for small to medium sized meeting spaces. GroupSTATION incorporates all the audio & video functions required for group collaboration in a compact sleek and robust form-factor. This multipurpose appliance is used for local presentations, PC-based Unified Communications, and VoIP conferencing.

**Image:** MicPOD™ Dock

The GroupSTATION system consists of a table-based MicPOD Dock and a GroupSTATION camera/sound bar. The MicPOD Dock functions as the microphones, user interface, and PC dock. Four (4) cardioid microphone elements, each with its own AEC (acoustic echo canceller), provide a 360° pickup pattern for all participants. Vaddio's SmartMic technology ensures that pristine, crystal clear audio is maintained for both local and far-end participants with hands-free, automatic operation. A capacitive touch user interface on the Dock provides for dialing, volume and mute along with video controls for zoom, PIP, and a 2-input source selection for complete operator control during a conference. The Dock features interfaces for a PC, laptop or tablet, HDMI or VGA inputs to locally extend the PC to the room monitor and a USB 2.0 UVC and UAC compliant connection.

The GroupSTATION wall unit includes a pair of 2-way loudspeakers with a HD camera in the center. Like the ZoomSHOT™ camera, the GroupSTATION camera has an auto-focus, 19X motorized zoom lens and is directly wired into the main processor in the camera/sound bar. ZoomSHOT is manually positioned for pan and tilt. The GroupSTATION also includes an HDMI output for the room LCD monitor extending the PC or laptop's screen when docked. A supplied single Cat-6e shielded cable (25-feet) connects the GroupSTATION with the Dock carrying power, video, audio, and network making installation a pure breeze.

### SYSTEM INCLUDES

**The Vaddio GroupSTATION System includes:**

- One (1) Group-STATION MicPOD Dock Controller
- One (1) GroupSTATION Wall Unit
- One (1) 25' (7.62m) Cat-6e Shielded Cable
